As soon as the tanks are filled, Martin said, Miss Butner can start her 10-hour, 10,000-mile, 10-minute route. She will fly a fast, low-winged monoplane powered with a 450 horsepower supercharged motor, her manager declared. She will start with 10 routes each day, flying from the Gulf of Mexico south to the Aleutians, to the Aland islands, and, if she reaches Seattle, will take off in a day or so for Dallas, Tex. to win a \$25,000 prize which Col. rounded up and refused to aid in gathering the cows. "I'll never help you," Vaughn shouted. Vaughn said that it was his understanding that the law did not require him to aid in the roundup. When officers told him that it did, he declared that he was afraid to aid in the roundup for fear that in case anything went wrong, he would be arrested for violation of the law. Then the farmer offered the aid of a neighbor to the soldiers in the roundup. He stated that his health did not permit his assistance. The offer was accepted and the herd was gathered up again adding when the cows neared the farm yard. Vaughn stated that he was an objector but had not participated in inflaming farmers against the T. B. test. He said that he had attended the meeting at the Everman farm when 2,500 men and women gathered in protest against the law.

Establish Picket
At the Vincent Little farm, a picket was established when officers feared a mobilization of farmers was in process.

Little and several of his neighbors and the farm women gathered in the yard and posted a sign under the American flag.

Captain Frederick B. Shaffer, commanding officer of the troops around the farm, said the action was a prearranged measure.

Some difficulty was also encountered at the farm of William Brookheiser. Women and men together stood about jeering at the veterinarians and troops.

"I'd rather shoot that cow than have it tested," one of the women declared, but the owner felt differently about the matter.

TIPTON, Ia.—(INS).—The possibility of another flareup by farmers in Cedar county Saturday was expected for next week when three cases, which resulted from the recent T. B. testing will be heard before Judge Altherton B. Clark, of Cedar Rapids, in the district court here.

L. W. Lenker, farm leader and state official of the Farmers Protective association, and Paul Moore, of West Branch, Farmers Union leader, will be arraigned Tuesday on charges of conspiracy in connection with the "bovine test war." Attorney J. C. France, of Tipton, will defend Moore and Lenker. County attorney William M. Dallas is expected to seek a change of venue following the arraignment.

Munday, Clark will hold a hearing on the temporary injunction issued last June by Judge J. O. Elfrink of Anamosa, restraining the Cedar county board of supervisors from assessing or paying further money to the Cedar county Farm Bureau.

Miss Madeline Reeves, West Seventh street, is spending the week-end at Ames, where she is attending the homecoming at the agricultural college as the guest of Kenneth Albee.

Mrs. John Breen, 700 West Second street, is spending the week-end in Chicago.

The Muscatine chapter of the American Institute of Banking will hold weekly study meetings, commencing Monday night. Employees of Muscatine banks are enrolled in the organization. M. B. Guthrie, of the Hershey State bank, will serve as instructor for the local group.

A discussion of a traffic light installation at Sixth and Mulberry avenue was scheduled at a special meeting of the city council called for this afternoon. However, neither of the third ward aldermen were present so the meeting was not held.

George Crane, field assessor for the state board is in Muscatine assisting Lloyd Grimm, Muscatine township and city assessor in making out data sheets.

H. F. Larson, C. H. Lemkau, Joseph Hawkins and E. P. Kent, delegates from Cedar Rapids to the Iowa Federation of Farm Bureaus, who attended the grand lodge meeting in Clinton have returned to their homes.

Deeds conveying a tract of land in section 4-78-2W from J. J. Thomas, by county treasurer, to W. J. Melner, and lots 5 and 6, Mill addition, Muscatine, from the Hershey Lumber company to Edward H. Springborn, have been filed with County Recorder G. C. Parks.

Miss Lorraine Fisher and Miss Vera Stroben, students at Coe college, Cedar Rapids, are spending the week-end with Miss Fisher's parents, Mr. and Mrs. Roy Fisher, 720 Mulberry avenue. Miss Margaret Melick, also a student at Coe college, is visiting her parents, Mr. and Mrs. H. B. Melick at West Liberty.

The Misses Ruth and Nina Steiner, 701 Liberty street are spending the week-end in Chicago as the guest of Mrs. Florence Elman. They will return home Monday night.

Mr. and Mrs. Charles Kleindolph, 519 East Seventh street, announced the birth of a daughter on Saturday. The child has been named Beverly Jean.

Heinie, orchestra leader and entertainer, who will handle the band at Duncan's Night Club on West Hill.

The orchestra comes to Muscatine with a background of varied experience, having played in some of the larger cities of the east and south and provided radio entertainment over several stations.

With the opening of "Duncan's Night Club" at the site of the Iowa Poultry farms, near the end of Lucas street, next Saturday evening, Muscatine will have one of the most modern and finest places of entertainment in this part of the country. The place will be operated as a night club, Earl Duncan, proprietor, announces, and will cater to the older persons and the better class of residents in the city.

The proprietor announces he will not discontinue the business of the Iowa Poultry farms but will operate the night club as a separate enterprise.

Spacious Dance Floor
Incubators and other equipment used in connection with the farm have been moved to another building and the large structure nearest the street has been remodeled into a dance pavilion. Seventeen booths and two party booths line the border of the spacious hard maple dance floor which is 25 by 75 feet, making it the largest place of its kind in this district.

On four nights of the week, Wednesday, Thursday, Friday and Saturday, Harold "Smiles" Heinie and his orchestra will furnish music for dancing. On two evening each week, probably Thursday and Friday, old time dances will be featured.

The place is also equipped with an "Orchestra," one of the largest in the city, which furnishes music that can be heard in all parts of the building.

Orchestra Is Experienced
Heinie's orchestra comes to Duncan's Night Club with a background of varied experience. It has played in Chicago, the "Castle Farms" at Chelmsford, the Brown Hotel at Louisville and the "Isle of Hope" restaurant at Savannah, Ga. In addition it has broadcast over radio stations WHO, Des Moines; WGN, Chicago and WHAS, Louisville.

All kinds of soft drinks and sandwiches will be served at the club but the place will make a specialty of chicken sandwiches.

Money Can Be Saved
The buying public will be quick to take advantage of this opportunity when it is realized that ten per cent can be saved on all purchases from now until Dec. 31. For instance, if your purchases aggregate \$350 between this time and Dec. 31, you save \$35. If your purchases aggregate \$100, you save \$10 by using Midwest Free Press merchandise coupons.

The plan will be welcomed by thousands whose incomes have diminished during the past several months, as others who are ambitious to save wherever possible. It will do well to stimulate trade in Muscatine and will influence business to stay at home instead of drifting to larger cities.

NEW ANGLE OF TRUNK MURDER IS UNCOVERED

Letter Sheds Light on Heinous Crime of Mrs. Judd

(Continued from Page One)

give me and help me. I am sick and I love you very much. "Shall I give up?"

Fears Hanging
"I don't think so. The police will certainly hang me if I do. It was as much of a battle as that between the United States and Germany; I shot in self-defense. Dear doctor I am sorry, Sammy shot me."

A postscript read: "I am being sought for by the police and cannot get any message to my darling precious husband."

"I've got to tell him everything so will you deliver this letter," "do it and deliver this message—be kind to my poor husband. I love him. I'm crazy I guess and there are times when I get tired, worried mentally and sick of mind—forgive me for my crimes—tell Dr. Judd I'll give him—tell him to please avoid the use of a rifle. I love him and hope he won't hate me for being wicked. Thank you and Mrs.—for having been so good and sweet to me in the past. One of my hands is about shot off so I can scarcely write. Do this favor to let Dr. Judd know what happened. I can—I love him but nobody but my dear husband and parents believe me. I am running away from the police. Kindest regards and hoping to—

"Ruth Judd."

A fifteen page document closely guarded behind the iron doors of an attorney's vault, hid the "Red" motive" that prompted Winnie Ruth Judd, captured trunk murderer, to slay her two best friends.

"My story means my life," she cried out at the county jail where she awaited the results of a legal fight launched by her attorneys to delay her return to Arizona to face possibly the hangman's noose for the slaying of Agnes Lerol and Hedwig Samuelson.

"It's terrible but I can't tell any more," she declared.

The letter which she wrote while hiding for four days in Los Angeles is locked in the safe of her attorneys and will remain there, Attorney Richard Cantillon said, until her trial.

Letter Describes Relations
The letter was said to describe in intimate details the relations of Mrs. Judd, secretary at Phoenix, Ariz., clinic with her close friends, Miss Lerol, 30 year old nurse at the clinic, and Miss Samuelson, 25, a red-haired school teacher patient whom she shot to death.

Mrs. Judd said she quarreled with Miss Samuelson over a "slighting remark" and refused to say what the remark was, but added the quarrel was all explained in the 15 page letter.

In her first declaration to her young brother, Burton McKinnell last Monday when she and McKinnell tried vainly to get the trunks in which the bodies were shipped here from Phoenix, Mrs. Judd said she was "justified" in the killings.

The letter, addressed to Dr. William C. Judd, the husband of the "Velvet Tigress" was said by Mrs. Judd to contain "my justification."

Wan, pale from the pain of a bullet wound which she said was inflicted in the quarrel which resulted in the death of her two best friends, she defied questioners who sought to determine just what led up to the quarrel and what caused her to shoot and dismember the bodies of the two women with whom she had lived.

Meanwhile Arizona authorities marshalled legal forces to insure Mrs. Judd's early return to Phoenix to face murder charges.

They attacked her "self defense" plea as "preposterous" and Los Angeles officers sought to tear down her story that she had hidden without food in a vacant house during the four days she successfully evaded apprehension.

Believes Wound Self-Inflicted
Detective Inspector David Davidson declared he believed Mrs. Judd shot herself in the left hand and that her story was "mostly lies."

County Attorney Lloyd J. Andrews of Phoenix said he had new evidence pointing to "premeditated murder."

Mrs. Judd suddenly became the center of a legal maelstrom late Saturday, when she was charged in a new Los Angeles complaint with being a fugitive from justice.

Taken to division one of the superior court to be arraigned on this charge, it was found all the judges had departed and the arraignment was postponed until Monday.

The move was to enable Los Angeles officers to hold Mrs. Judd.

County Attorney Andrews of Phoenix and District Attorney Burton Pitts conferred with Mrs. Judd at the city jail hospital. It was said they sought to expedite Mrs. Judd's return to Arizona.

Dr. Judd, sternly opposed his wife's waning extradition. Papers for Mrs. Judd's extradition to Phoenix are en route here in the hands of Sheriff J. W. McFadden of Maricopa county, Arizona.

Launching a battle for possession of Mrs. Judd, her attorneys announced they would prepare an insanity complaint to compel an alienist's hearing in Los Angeles.

Physician Upholds Baker's X-Ray and Cancer Views

Norman Baker knows what he is talking about. How easy for the public in general to be swayed one way or the other in their belief regarding public questions. We have heard stories and read many articles regarding activities here in Muscatine on the cancer situation.

The good news now comes from New York City from Dr. Francis Carter Wood, director of the Crocker Institute of Cancer Research at Columbia University, which proves conclusively what Norman Baker has been fighting for for the last nineteen months.

Such men as Verne Marshall, editor of the Cedar Rapids Gazette, as well as Des Moines and Davenport papers, and the Muscatine Journal; in fact, the press throughout the country, have kept up a continuous persecution upon Norman Baker, because he saw fit to give the public the facts, and especially did he do so, no doubt, on account of his sympathy for cancer patients.

He very plainly, over radio and in print, stated that X-ray did not cure cancer. For that he was ridiculed, he was classed as one who was trying to throw the wet blanket upon others or to discredit the work of the medical profession. From what we concluded that was not his idea, but his intentions were to let the truth be known and to let the public know that there are many other things of just as great importance as the cancer situation, which has only had one side given to the public.

We feel that Mr. Baker and others who have waged such a courageous fight with the Baker Hospital at Muscatine, Ia., are partly vindicated by the foregoing article which appeared, Oct. 19, in the Daily Times at Chicago, and came from a director of one of the largest cancer research societies in America. The article follows:

X-RAY VOLTAGE HELD NO FACTOR IN CANCER CURE
NEW YORK, Oct. 19.—Dr. Francis Carter Wood, director of the Crocker Institute of Cancer Research at Columbia University, has reported two important discoveries regarding cancer.

"Through new methods of studying cell life, the institute has discovered that cancer cells differ in no way from normal ones, but are merely feeble, parasitic cells which increase only because they die so easily, their very death producing new growth."

"Dr. Wood also revealed that it has been proved the voltage or X-ray is no factor in cancer cure, 2,000,000-volt tubes being no more effective than the ordinary tube."

"It is probable that if the problem of cancer is ever solved it will be done by patient industry on the part of a large number of trained investigators and not by a brilliant stroke of the imagination, Dr. Wood declared."

The press of the country carried many articles, some bordering on the sensational about the new two million volt tube that would be used for X-ray work and was expected to do so much for cancer.

This was ridiculed in our columns and it must be a great source of relief for Mr. Baker to know that his views have at last been given public attention and publicity by one of the greatest nationally known physicians in cancer research work in America, and at the same time places Verne Marshall—the editors of the Des Moines Register and the Adler papers as well as Manchester, Massachusetts and other editors of small papers throughout the state in a bad position, for reasons that they have been persecuting Mr. Baker and his cancer work, and upholding methods of organized medicine, doing their part to keep the truth from their own subscribers."

Time tells all things, and little by little readers and subscribers of those papers, which have refused to give their readers the facts, and have refused to investigate before condemning, will awaken some day with a much smaller subscription list, if they are not careful.

his aides another draft. At a final meeting these drafts will be merged into one document, which will explain the purpose and results of their historic meeting.

Everybody In Good Humor
Everybody appeared in good humor as the curtain prepared to come down.

Even M. Laval's brush with Senator Borah (R) of Idaho, seemed about to be smoothed away. They were dinner guests and conferees at Secretary of State Stimson's stag dinner in Woodbury, and prior to that M. Laval had sent an emissary to Borah's office during the day "explaining" how he came to make such a slighting reference Friday night to the Idahoan knowledge of foreign affairs. They still, however, have different ideas about the Versailles treaty which are deep and wide.

Launching a battle for possession of Mrs. Judd, her attorneys announced they would prepare an insanity complaint to compel an alienist's hearing in Los Angeles.

Then there is the case against R. P. Broders, Stockton farmer. This case is still pending in the court of Justice J. C. Coster here. Broders' bond money, \$200, was returned to him, but both County Attorney Harold E. Wilson and Justice Coster declared the case had not been dismissed. Later, however, the county attorney hinted that the case would not be brought to trial.

Porter Gets Told
Mr. France also took C. B. Porter, Cedar county clerk, to task for the manner in which the information against Mr. Lenker was handled. The warrant for the farmer was issued upon the day of his arrest, but was not filed until less than an hour before his hearing was scheduled to be held in Cedar Rapids.

On the next occasion, when he was arrested by guardsmen, he was released from the custody following the hearing on a habeas corpus proceedings and, although Judge Ring, before whom the case was tried, did not announce at the time he gave his decision against the farmer, the costs would be assessed. It is understood that the state will be required to pay them.

PEN SENTENCE IS HARD 'RAP' FOR AL CAPONE

Gangster Leader Is Given 11 Years in U. S. Prison

(Continued from Page One)

Ries, Capone was told by the judge he would have to pay the cost of the prosecution, estimated at \$100,000.

Judge Wilkerson outlined to Capone his sentence in this manner: Five years in Leavenworth and \$10,000 on the first count on which he was convicted, charging a felony.

These two sentences, the judge stated, will run concurrently.

Five years in Leavenworth and \$10,000 fine on the ninth count, this sentence to begin after he has served the first five years, making a total of ten years in the penitentiary.

One year in the county jail and \$10,000 fine on the thirteenth count, charging a misdemeanor.

One year in the county jail and \$10,000 on the eighteenth count, charging a misdemeanor.

Judge Wilkerson ruled that one of the misdemeanor sentences, that on count thirteen, would run concurrently with the count one (felony) sentence.

Can Reduce Sentence
Under the federal rules of offense for good behavior, Capone can reduce his sentence to about seven and one-half years.

The court also decided that while Capone is serving the penitentiary sentences he will be given credit for the six months' sentence imposed upon him some time ago for contempt of court in refusing to come to Chicago from Florida to testify before the Federal Grand jury in a liquor case.

Capone accepted the decision of Judge Wilkerson with as much equanimity as he could muster. It was evident from the gang chief's demeanor, however, that he realized he had been handed a stiff sentence. He tried to be nonchalant about it all when he shook hands with his lawyers, Pink and Ahern, as he prepared to leave the courtroom with the marshal. He smiled, but it was a wan, forced gesture.

His mood became evident when, just as he was leaving the courtroom, a process server, A. P. Henthorn, served him with a lien on his taxable property. The lien was to satisfy a claim of \$137,328.16 in taxes due, according to the government's claim, from Capone and his wife, Mae Capone, for the years 1925, 1927, 1928 and 1929. As Henthorn stepped up to him with the papers, in an irritated tone, said:

"Why don't you fellows leave me alone, you dirty—"

Capone drew back as if to kick

Henthorn but checked himself and accepted service.

The lien was part of the Internal Revenue department's program in going after gangster's on their income taxes. The lien lies up not only the property in the Lexington hotel, his estate on Palm Island, Florida, his yacht and any other real estate he may possess, but also the contents of two safety deposit boxes alleged to have been rented by Capone in Chicago.

Capone Becomes Angry
Capone became even more angered upon his arrival at the county jail. There he flew into a rage when a photographer sought to snap his picture. He seized a bucket and shouted: "I'll brain you." Guards surrounded and calmed him.

A little later Capone engaged two fellow prisoners, William Dawson, a down-and-out, and George Jones, negro parole violator, in conversation. Capone put his hand into his pocket and from a huge roll pulled off a \$100 bill. He handed it to Dawson.

"I'm going to help this guy if I can," he said. "He needs \$100 to pay a fine for disorderly conduct."

Capone must first serve ten years in the federal penitentiary. Then he will be brought back to Chicago, scene of most of his activities, to "go" a year in the county jail.

Attired in a dark purple "plinch back" suit and a lavender tie, Capone came into court this morning to be sentenced. He was liable under his conviction by a jury for income tax evasion to a maximum punishment of seventeen years and fine aggregating \$50,000. The judge sentenced him to the full seventeen years but trimmed the sentence to eleven years by ruling that certain terms could be served concurrently.

The eleven-year sentence apparently was more than Capone bargained for. His pendulous lips tightened and his round, swarthy face became a trifle paler as Judge Wilkerson pronounced his decree. Capone stood before the bar of justice, his hands behind his back as the judge spoke. The defense-

FARM MEETINGS ARE ANNOUNCED

Monthly Session of Directors Listed On Schedule

The schedule of events for the Muscatine County Farm Bureau for the current week will include the second training school on the nutrition project, the October meeting of the board of directors, and a contest meeting, along with township organization meetings and training schools.

Carl Rylander, county farm agent, and Miss Elizabeth Armstrong, home demonstration agent, who have been spending the past week attending a leaders conference at Ames, will be back at their desks Monday morning.

Will Elect Officers
Following is the schedule for this week:
Tuesday, Seventy-Six township meeting at the home of John Lee. The program will include moving pictures and election of officers.

Thursday, Fruitland township meeting at the Island Methodist church. Members are to furnish the program. Moving pictures will be shown and officers will be elected.

Pike Meeting Friday
Friday, Pike township meeting at Pike school No. 2. School children and the Pike Lassies Four-H club will be in charge, with a play offered by the club members. In addition to motion pictures, officers will also be elected.

In the second of the series of training schools on the study of nutrition, to be held Tuesday, Miss Ruth Cessna, nutrition specialist will be in charge.

Plan Contact Meeting
There will be an all day contact meeting for township publicity chairman and county officers on Friday at the court house in Ames. Mrs. Ellsworth Richardson of Williamsburg, district committee woman in charge.

Township training schools will be held Monday at the home of Mrs. Charles North in Wilton township, Wednesday at the home of Mrs. A. S. Shepard in Fruitland township, and Thursday at the home of Mrs. J. H. Bolter in Lake township.

Reports will be presented and other matters will come before the board meeting on Saturday afternoon.

CAR TOOTED OWN ALARM

LONDON—(INS)—A car sounded its own horn and saved a garage and other automobiles from destruction when it caught fire at Chester, recently. The heat of the flames caused the electric horn to toot. A man was attracted by the sound and gave the alarm. The fire brigade saved the other cars, but the car that had sounded the alarm was destroyed.

High School B Team Holds Wapello High To 0-0 Game Friday

Fighting hard and displaying a clever offensive attack which had the visitors on the defensive a good deal of the time, Coach Howard McIlraith's Muscatine high school B team held the Wapello high schoolers to a scoreless tie at Jefferson field Friday afternoon.

Wapello's only threat came in the final quarter when an offensive attack led by Bickford carried the ball to the Musky 5-yard line with first and goal. However, the locals held for four downs and Frisner punted out of danger.

A few minutes later the visitors were punning away within the B team's 10-yard line but again the locals held for four downs. Frisner punted out of danger as the game ended.

Cosch McIlraith's backfield functioned in fine fashion and raked off several long gains during the fact that the field was wet and slippery.

WILTON, Ia.—(Special)—The St. Ambrose Midgets hung up their second consecutive win by downing the Wilton high schoolers here Friday afternoon, 6 to 0. The lone counter came in the third quarter. The Wilton backfield was helpless against the powerful St. Ambrose forward wall. "Red" Lawson starred for the locals.

Morning Sun Plays Mediapolis to Tie

MEDIAPOLIS, Ia.—(Special)—The Mediapolis and Morning Sun high school football teams battled to a scoreless tie here Friday afternoon in the second conference game for the visitors.

Today Will Be Fair With Monday Cooler, Predictions State

Generally fair weather will prevail today and Monday, according to Saturday's late forecast. The southeast portion of the state will experience slightly cooler temperatures today, predictions said.

Precipitation in the amount of 14 of an inch was reported up to 7 a. m. Saturday. The wind had shifted from the south to the west. Saturday morning's 7 a. m. temperature reading showed 80 degrees, which was four lower than on Friday. The river was at a stand of 2.6 feet.

"NAVY DAY" TO BE NOTED HERE

Observance Urged in Proclamations by Governor, Mayor

Proclamations issued by Gov. Dan Turner and Mayor Herbert C. Thompson call upon residents of Muscatine to pay respect to the United States navy on Oct. 27. The day is being observed nationally as Navy day. The John Harold Kemble post, Veterans of Foreign wars has called a special meeting for that day in order to observe the event.

In the proclamation issued by the governor he calls attention to the fact that more than 12,000 Iowa homes have contributed their navy to the navy during the world war and a large number of Iowa boys are now serving their country upon the seas.

The mayor's proclamation is as follows: "Whereas, Tuesday, Oct. 27 has been set aside as 'Navy Day' to be observed throughout this nation in honor of the gallant men, past and present, who by their unbroken record of devotion have given our navy and nation an unparalleled position of brilliance and honor in the history of this world:

"Therefore it is urged that all patriotic citizens of Muscatine give due and thoughtful consideration to our Navy on said day and to pay some mark of respect in the passing."

"Witness my hand this 23rd day of October, 1931.
HERBERT C. THOMPSON, Mayor.

BIG AUTO REVENUE

OTTAWA, Can.—(INS)—Revenue from motor vehicles, including registration and gasoline tax, totaled \$41,076,405 in 1930, an increase of \$1,745,103 or 4.3 per cent over the previous year, according to a preliminary report on highways and motor vehicles issued by the Canadian Government Bureau of Statistics. There was a decrease during the year under review of \$2,165,154 in registration fees due largely to the decrease of the average fee in the province of Ontario, but this was offset by an increase of \$3,910,257 in the receipts from gasoline tax over that of 1929, owing to the larger quantity of gasoline consumed.

YOUTH HURT IN CISTERN BLAST

Expect Holtz Boy, 12, Will Recover From Burns, Injuries

That Verle Holtz, 12, injured late Friday afternoon when an explosion wrecked a cistern at the rear of his home, 904 Park avenue, will completely recover, was the belief expressed Saturday by the attending physician. The lad's condition is rapidly passing the danger of internal injuries and his eyes, which was injured in the explosion, appears to be approaching the normal stage, it is announced.

Verle, only son of Mr. and Mrs. Roy Holtz, was hurried about 20 feet by the force of the explosion which shook homes for a distance of more than a block.

It is believed the blast was caused by gas from hot water as he was dumping in the cistern, combined with a gas formed from empty tin cans and other debris previously dumped there. The cistern had not been in use for several years.

When the lad was picked up in the yard it was thought his injuries would be fatal. An examination revealed two deep cuts on the back of his head, burns and cuts over a large portion of his body.

Following the explosion flames leaped from the mouth of the cistern to a height of four or five feet, but soon died out.

The lad was removed to a local hospital in the Hoffman ambulance.

"DEVOTION" TO BE SHOWN HERE

Ann Harding Will Be Seen in New Film At Fox Palace

Ann Harding, blonde favorite of the screen, comes to the Fox Palace theater today in "Devotion," a picture of a type which is unusual for her. The film opens a three day run at the local playhouse this afternoon.

In "Devotion" Miss Harding plays a double role—one as her charming self and the other a dowdy, middle-aged governess.

E. Kirk Has Narrow Escape From Death Under Falling Beam

Although Earl Kirk, Colorado Street, Had a Narrow Escape from Death Friday Afternoon, he Had All His Experience Saturday Evening of Being Completely Recovered from His Experience Saturday Evening.

The ear was saved back on and is now in an apparently good condition. The beam, which fell a distance of 30 feet, missed Kirk's shoulder by a fraction of an inch.

TEACHERS HOLD STUDY CENTER

Drawing and Silent Reading Stressed At Conference

Approximately eighty teachers of one and two room schools in Muscatine county attended the study center held Saturday morning at the local high school auditorium. Guy Thomas, teacher of the Oak Grove school, gave a report on the silent reading test held on Oct. 16, in comparison with tests on comprehension. He declared that he reading tests conducted in his own school showed the pupils were reading faster, but the comprehension was about the same.

C. E. Arls of Des Moines, art and drawing demonstrator, spoke on the value of drawing in the public schools as a means of developing appreciation, knowledge and skill upon the part of the pupils. He also explained the plan of the art education books as used in the Muscatine county schools. A reading demonstration by the pupils of Alton Singleton, teacher of Brockway school in Orono township, was also given.

The next study center was announced by County Superintendent E. D. Bradley for Nov. 21, when results of arithmetic study work will be checked.

KNIFE ADVISED FOR CHILDREN

Prophecies of Baker Recalled by Talk Before Doctors

Recommendations were made by Dr. Philemon E. Truesdale of Fall River, Mass., before the twenty-first clinical congress of the American College of Surgeons at New York City, that all children should grow up with the knife and have their appendix removed, and that while unhealthy, it reduces the death rate.

This announcement will recall to the minds of the people of the middle west, the prophecies made by Norman Baker, when station KNTV was in operation at Muscatine, regarding the formation of the College of Surgeons, and how eager its members have been to use the knife to save a patient and be induced to undergo an operation.

The announcement from New York also verifies statements made from KNTV that set the doctors agog in the central west, as well as other far reaching points over America that were reached by KNTV.

Remarks of this kind are seen by many as the beginning of more medical propaganda, the broadcast to schools and to the school nurse, which will eventually go to the parents, many of whom are members of the Parent-Teachers association.

That too much fuss cannot be raised by such a remark is the opinion of many who find it hard to conceive that the parents will believe vicious propaganda of that nature, and decide to leave the appendix in the spot where the creator put them.

MRS. E. J. CROSON DIES NEAR LETTS

Mrs. Eliza Jane Croson, of Aledo, died Saturday morning at the home of her daughter, Mrs. Nora Mahaffey near Letts. Death was caused by heart disease with which she had been suffering for some time.

Eliza Jane Boney was born in Alleghany county, Pa., Nov. 16, 1846, the daughter of Joseph and Rachael Boney. She came to Rock Island County, Ill., with her parents when nine years old. For a time she made her home near Buffalo Prairie, Ill., where she was married on Oct. 2, 1879 to Elias B. Myers, who died June 18, 1896.

In 1900 she moved to Aledo, Ill., where she had made her home ever since. In 1915 she was married to V. E. Croson who died in 1928.

Surviving are three children, Vincent Myers of High River, Canada; Mrs. Mahaffey and Elias B. Myers of Rock Island; three step-children, James Croson, Mrs. Anna Rathbun and Mrs. Myrtle Postwaite, all of near Aledo, and one brother, Thompson Boney of Muscatine.

The body will remain at the Hoffman Funeral until funeral arrangements are completed.

DAM, LOCK SITE PROPOSED HERE

Government Officers Arrive and Survey Of River Begun

Work of surveying along the Mississippi river, from a point below "Tow Head" island to about one and one-half miles above the high bridge, for the possible location of locks and dam to be built in this vicinity in connection with the nine foot channel project, was started Friday afternoon by a group of engineers from the Rock Island government office. They will be in this vicinity for the next three weeks, it is announced.

A group of 21 men will be engaged in the work. About ten men came here Friday and the remainder will arrive during the first of next week.

Exact location of the locks and dam which it is expected will be located in this vicinity, will be decided after the surveys are made, from the office of the upper Mississippi river division at St. Louis. Eighteen dams will be constructed in the Rock Island district, which comprises the area along the Mississippi river between the mouth of the Wisconsin and the Illinois rivers.

Reduction of Half A Mill Assessment By Farmers' Mutual

Officials of the Farmers' Mutual Insurance Company have announced a reduction of a half mill in the assessment to be levied for the coming year. This was made possible by the satisfactory financial condition. It was stated at a recent meeting. The levy was placed at 2 mills, while last year's levy was 2 1/2 mills.

Notices of the reduction in the levy will be mailed to all policy holders before Dec. 1. The assessment rates compare favorably with other similar organizations in this area. The company writes insurance in Muscatine and nearby counties.

STITCH FOUND IN OLD WOUND

Michigan Woman May Sue on Findings Of Dr. Potter

An operation for cancer in the right breast was performed last December by Dr. Crane of Ishpeming, Mich., upon Mrs. Dunstan. The breast was removed and the operation was performed upon the advice of Dr. Crane, Corcoran and Van Dender, all of Ishpeming. The doctors said they were suspicious as to whether there were cancer cells.

Later, Mrs. Dunstan came to the Baker hospital in Muscatine for treatment of the same breast, after noticing a return of the trouble. While treating her, Dr. W. W. Potter, who is in charge of the Baker hospital, discovered and removed a piece of what appeared to be silk thread which had been left in the breast after the operation. This was found under the cancerous mass that Dr. Potter was removing from the breast after a few weeks of treatment, which caused the cancer to lift out without operations.

Whether or not suit for damages will be brought is not yet known. The question which arises is as to whether the foreign matter left in the breast caused an irritation that developed into cancer.

COUNTY AWARDS INFIRMARY JOB

Metal Products Firm Of Muscatine Has Lowest Bid

The American Metal Products company of Muscatine was awarded the contract by the board of supervisors late Friday afternoon for supplying metal work and painting of roofing, downspouting and other repairs at the county farm on House street. C. Geisel, proprietor of the local firm, presented a low bid of \$429.37.

According to the terms of the contract, the work is to be completed Dec. 1. There were three bids in all. The contract covers a total of fifteen buildings.

Gravel letting contracts were awarded earlier in the afternoon, and the lowest prices ever received, were submitted for road surfacing work in the county. The Erie Construction company of Marshalltown was given the contract at a price of \$13,868.25, agreeing to supply crushed rock instead of gravel, on one section of road. The same company submitted a somewhat higher bid on Thursday for the use of pea gravel.

The next two bids for the gravel were \$17,065.50 and \$17,245.96. The surfacing work will be done on 8.6 miles of county trunk roads, and a portion of other trunk roads already surfaced.

WAR MEMORIAL CONTEST

BOSTON—(INS)—Furnishing the type and design of the memorial to Massachusetts men and women who have participated in all wars has started a keen contest among more than one hundred leading Bay State architects. The drawings will be sent to Rogers Hall, Massachusetts Institute of Technology, and the Massachusetts War Memorial Commission, headed by General Charles B. Wheeler, of Pittsfield, will have the task of selection. The memorial will be located in the Back Bay Fens, near Richardson Bridge.

Many combination shop and residence buildings are being erected in Hong Kong, China.

R. Wagener Charged With Lascivious Act

Charged with lewd and lascivious acts with a child, Robert Wagner, 802 East Fifth street, is scheduled to have a hearing before Justice H. D. Egan at 2 p. m. Tuesday. He was released under bonds of \$1,000.

Local police arrested Wagener Friday afternoon following the filing of a complaint by parents of the girl he is alleged to have molested.

NEW ERA PLAY ON WEDNESDAY

Rehearsal for "He's My Pal" Will Be Held Monday

NEW ERA—(Special)—Members of the cast of the play, "He's My Pal," to be given in the New Era community building on Wednesday night, will be held on Monday night. The play, a three-act comedy, centers about the love affairs of Lark Marie Sumner and Wally Allen, and is about two and a half hours in length.

The scene of the action is Ma Averill's boarding house located in a live town in California. Act one takes place late in the afternoon just before the evening meal, in the living room of the boarding house during a real estate boom. Act two is the same scene, early in the evening two weeks later. The scene of action for act three is the same, but three months later than act two.

The cast of characters is as follows: Tom Sparks, Vernon Halling; Wally Allen, George Henke; Lark Marie Sumner, Mrs. H. O. Sauer; Calvin McCoy, Bert Sauer; Blossom McCoy, Margaret Kretschmar; Harry Booth, Roger Kretschmar; Snudge, Mrs. Clarence Mockmore; Kitten Blake, Inez Brei; Dick Smith, Fred Halling; Roger Call, Henry Henke; Mona Spark, Mrs. Henry Henke.

There will be specialty numbers and music during each act. Admission charges will be 15 cents for adults and 10 cents for children under 12. The curtain will rise promptly at 8 p. m. Lunch will be served at the conclusion of the play.

THREE BANDITS TAKE PAY ROLL

Iowa Mining Company Robbed of \$2,800 By Unmasked Men

DES MOINES, Ia.—(INS)—Three unmasked bandits Saturday morning held up and robbed two employees of the Clover Leaf Coal and Mining company of \$2,800 pay roll.

The men, James Christianson and Joseph Schlat were on their way to the mine when they were accosted by the bandits several miles southeast of Des Moines.

Mr. Farmer:

Are you getting what your products are worth?

On your sale, do you get a fair price for your machinery, livestock, etc?

IF NOT—WHY NOT?

The answer is simple.

The buyers aren't there.

To have a successful sale one must have buyers. To have buyers present they must be notified of the sale.

The simplest, quickest and most efficient way of notifying the public is to run your "Farm Sale" on the Classified Page of the Free Press.

WHY?

1—Because there is no other paper in this section of the country that covers the farming area as completely as does The Free Press.

2—Because the farmers have confidence in this paper and know that all offers in it are bonafide.

3—Because the Free Press has definitely backed the farmer and is willing to co-operate with them in every way possible. We are interested in getting results for you.

Is it any wonder that a Farm Sale inserted in the Free Press is so well attended?

Take advantage of the means placed at your disposal to make your Farm Sale a success.

Don't Neglect Needed Repairs ON YOUR HOME

It saves a lot of trouble and expense to make repairs on your home when they are first noticed.

One little repair item doesn't cost much. It's when repairs are neglected that the danger comes in.

By doing this you also keep up the appearance of the property, and appearance adds to the salable value of your home.

Lumber is priced so low now that no one can afford not to take advantage of it.

We will gladly give you an estimate of your needs on improvements, additions or repairs on your property.

Just phone our plan department and details will be supplied without cost or obligation on your part.

As We See It

The Farm Board's Amazing Proposal

The amazing proposal of the Federal Farm Board that dairy farmers meet a threatened overproduction by killing every tenth cow, startlingly illustrates the present criminal insanity in the midst of an industrial system that clearly has broken down.

The proposal is both insane and criminal in view of the present distress of millions of the wage working population and unemployed and their grievous need of milk and other articles of food this coming winter.

At the very moment the dairy committee of the Farm Board makes this utterly impracticable and preposterous proposal, literally millions of babies in our towns and cities are suffering acutely from undernourishment and particularly are suffering for want of milk. At the moment this committee was broadcasting this advice a leading metropolitan daily in Chicago was conducting a campaign to raise a milk fund for starving babies. It was publishing accounts of tragic cases of babies that were contracting rickets and other diseases of malnutrition or literally starving to death for want of milk. Under the present distress this is true in practically every city in the United States. UNDER THESE CONDITIONS WE CAN CONCEIVE OF NOTHING MORE CRIMINAL THAN DELIBERATELY DESTROYING ONE-TENTH OF THE NATION'S MILK SUPPLY.

The scheme is utterly hair-brained in view of the impos-

bility of putting it into effect in the midst of the present unorganized and individualistic status of agriculture. The first thing that will occur to the average dairyman is this: "The government has advised the dairyman to kill every tenth cow. This will improve the market for milk, cream and butter and raise prices. Here's my chance. I won't kill any of my cows and I'll make a lot of money next year." Not one half the dairyman throughout the nation would kill their cows. THE GENERAL RESULT OF THE ORDER WOULD BE A GREATER DAIRY PRODUCTION.

Another result would be to increase the present surplus of cattle feed.

This entirely impractical governmental advice follows the Farm Board advice to cotton growers to plow under next year every third row of cotton—destroy a third of the nation's cotton crop, thus making cotton goods scarcer and higher-priced at a time when millions are suffering for clothing and bedding and cotton goods are the only kind of goods within their reach.

The Farm Board has been advising farmers to feed their wheat to livestock and they have been driving remarkably foolish bargains with foreign nations in order to get rid of the nation's source of bread. They dumped 25,000,000 bushels of wheat into China at an extremely low price on remarkably long term credits, while millions of Americans unemployed and half-time workers are suffering for want of bread.

The present industrial system is in the last stages of breakdown. It has fallen into a condition wherein the men who own and control it IN ORDER TO SAVE THEIR PRIVATE PROFITS have to DESTROY AND DESTROY billions of dollars worth of wealth in order to make goods scarcer and higher-priced in the midst of widespread poverty and acute want. This destruction is much

greater in industry than in agriculture. IT CONSISTS MAINLY IN THE CURTAILMENT OR SUPPRESSION OF PRODUCTION, WHICH THROWS MILLIONS OUT OF EMPLOYMENT. It is safe to say that at present American industry is operating on less than half its normal capacity. IN OTHER WORDS, MORE THAN HALF THE CONSUMABLE GOODS ARE BEING DESTROYED IN ORDER TO PRESERVE THE PRIVATE PROFITS OF OUR INDUSTRIAL AND FINANCIAL MAGNATES, WHILE INCREASING MILLIONS STARVE.

There is another alternative that is rarely ever mentioned in the publications controlled by the big business interests. IF ADEQUATE INCOMES COULD BE DISTRIBUTED TO THE FARMERS AND WAGE EARNERS THEY COULD BUY ALL THE MILK, ALL THE COTTON, ALL THE WHEAT AND ALL THE INDUSTRIAL PRODUCTS THAT AMERICA COULD PRODUCE FOR A LONG TIME TO COME. When all the normal wants of all the American people were thoroughly supplied all abnormal increase in production could be checked by sending all the children in industry to school and shortening the hours of labor. The cure for so-called overproduction is INCREASED CONSUMPTION, NOT THE SUPPRESSION OF PRODUCTION WHILE MILLIONS ARE STARVING.

The problem before America now is to build up a new financial and industrial system wherein THE INCOME OF THE ORDINARY CITIZEN AND WORKER, AND NOT THE INCOME OF THE TRUST MAGNATE, IS THE PRIMARY CONSIDERATION.

The latest estimate is that autos are killing 90 persons a day throughout the United States, and wounding at least ten times that many. This removes the last excuse for having

war in order to remove the surplus population and furnishes a new argument for pacifists.

If the Hoover administration creates any more pools to save bankers, railroad owners, industrial magnates and farmers, this country will just be one big bog. Maybe Hoover's pools are made to hold the water that has been squeezed out of stocks.

While Governor Turner has the militia in the field he ought to give all Iowa citizens the T. B. test. Maybe that would make them all sick or crazy so they would vote for him next election.

The goat that supplies Mahatma Gandhi with milk won first prize at a English dairy show, which is another proof that environment and association are more important than heredity.

President Hoover in a broadcast asked the American people to quit glorifying gangsters. We can't do that now days without being 'agin' the government' and unpatriotic.

The Evening Story

A SCARF FROM VENICE

By LAURA REID MONTGOMERY

"Yes," returned Miss Smithers, "it is an exquisite rug. She said it was made from neckties; her brother has them made to order, and you'll notice there is a scarlet thread through every motif."

The young doctor, touched the small silk rug reflectively. Mona caught the gleam of excitement in his hazel eyes and something cold, depressing, crept into her heart. She knew nothing of rugmaking, in fact, she had no time or talent for fancywork. She had been occupied since leaving business college in the whole-time work of earning a living for her aunt, Amanda Smithers, and herself.

"Yes, a scarlet thread," he was saying. "Rather unusual, don't you think? Some folks have to do without color all their lives, while others—His voice died away, although the romantic Amanda retained her listening attitude as the purchasers at the bazaar milled about and asked prices of the pretty girls behind the picture-galleries.

"Don't you want to buy it for your future home?" demanded Amanda Smithers, her arch glance including her niece.

"I'll buy it," was his somewhat determined reply. "If you'll give me the name and address of the young person who made the rug."

"Young," she parried.

"I have an idea I know her," Mona turned away. Then he had meant just nothing at all by his attentions, this clever young physician who had put Amanda on her feet again after her six months' seclusion.

"Mona, find the name and address of the donor of this silk rug. I'm going to tack \$25 extra on the price, doctor. But it's for charity, you know."

"Tack on five extra," was his reckless rejoinder. "I'm desperately anxious to get her address. I met her in Venice and well, no use boring you with the story."

Mona's teeth came down sharply on her pink lip. Why should she produce this address? Why further the romance that had had its inception in the romantic setting of Venice. A gondolier's song on moon-swept waters—a cluster of heliotropes on the shoulder of the exquisite Natalie, whose gown were gossamer dreams—Mona loved Jerry Martin, M. D., had woven dreams of a future.

"Can't you find it? Usually the donors remain anonymous, but \$5 extra is worth some trouble."

Mona wrote the name and address swiftly, lest her heart betray her conscience into denying remembrance. "There it is, doctor," she said evenly. "It is Natalie Deming whom you met in Venice you could not forget her, I'm sure. She is lovely."

"Oh, yes. Her portrait was painted on the steps of an ancestral palace with a copper sun drenching her with light. She seems to be the central figure wherever she goes. I'm delighted to get her address."

Swiftly he threaded his way through the crowds and Mona sighed as she gave the price of a satin pillow. Some girls had all the luck.

Because of her booth at the bazaar Mona had dropped behind with her housework, which she accomplished after office hours and on Saturday afternoons, so it was that Jerry Martin found her wearing a dust cap and an all-enveloping apron when he called to see her

In the kitchenette apartment a few nights later.

"Mona, honey, that scarlet thread is going to be woven into our lives," was his astonishing statement as he swept her into his arms.

She stared, becoming rosy beneath her little frilled cap, one bright curl straying out across her cheek.

"Such luck," he continued. "When I was in Venice the Pierre Deming sent for me to sew up a cut on his forehead and later revealed his situation to me. He was in a grave difficulty and needed \$3,000 immediately. Feeling sorry for the two, Natalie was simply overwhelmed by the impending disaster—I consented to endorse his note for him. When he collected his money they vanished, leaving me to meet the obligation. It left me pretty short and I was good and mad at being swindled like that. He had, they both had, almost everything made out of order and that scarlet thread in his neck scarf was commented upon at their hotel. So when I saw that rug I got their address, hunted them up at their smart hotel and he paid up because he didn't want any trouble here."

"Oh," said Mona very low, her brown head resting cooly against his shoulder, "red is a lucky color for—us."

PETER RABBIT DOESN'T KNOW WHAT TO THINK

As Peter Rabbit crawled through the hole in the fence into the garden of Farmer Brown he was doing his best to think of something to say to keep up the spirits of his friend, Old Mr. Toad. You remember that Old Mr. Toad had fallen into a great pit in a corner of the garden, and that all that day Peter had tried to dig out of some way to help Old Mr. Toad out. He had almost run his legs off trying to find Sammy Jay. At least, that is the way his legs felt. Sammy was the only one Peter could think of who could get Farmer Brown's Boy over to that pit, and Farmer Brown's Boy was the only one he could think of who could get Old Mr. Toad out.

But Sammy Jay had been nowhere to be found, and Peter felt that all his efforts had been for nothing. He had so hoped to be able to help Old Mr. Toad through Sammy Jay and Farmer Brown's Boy, and all he could do was to try to cheer up Old Mr. Toad and keep up his spirits. This didn't seem like doing anything at all. But in this Peter was mistaken. To try to comfort and cheer those in trouble is to do one of the very best things in all the world.

As Peter drew near the edge of the deep pit in the corner of the garden he paused. Somehow he couldn't bear to look down in there. He knew that Old Mr. Toad couldn't bear the hot sun, and there he had been in the bottom of that pit all the long hot day without a thing he could crawl under.

"He must have suffered a great deal," thought Peter. "Why didn't I think to cut some big cabbage leaves and drop them down there for him? How stupid! How stupid I am. I'll do it tonight, so that he may have them tomorrow. They will keep the sun off. My afterthought is a great deal better than my before-thoughts."

In this Peter is not unlike a great many people. Afterthoughts are very often a great deal better than beforethoughts. But the real trouble with Peter's thinking was that he didn't think enough, although he tried hard enough. If with his thinking he had remembered things which he had found out it would have saved him some

And what I can't see is how those soldier boys can take a gun and go against the farmers.

Maybe their brothers, sisters or fathers are farmers. Boys who like to see your mother or father put in front of your gun. Why don't you soldier boys lay down your guns and say, "No we will not take up arms against the farmers when they are not doing any thing wrong."

Oh boys do stop and think and don't let the other big guns do your thinking. If you don't watch out they will shoot some kind of poison into you to find where your brains are. It is hard to tell what they will do next, and you can't believe what they say about what the farmers are doing or have done.

If I had a son that didn't think any more of his mother than to shoulder a gun against the farmers or any working man or woman, I would surely be ashamed of him. Our brothers, remember you are nothing but common poor boys. The rich man's boys know too much to worry regarding Old Mr. Toad. But he didn't think back, and so he quite forgot that Old Mr. Toad could dig himself right down quite out of sight in the sand at the bottom of the pit and so get out of the sun.

Carefully Peter crept to the edge of the pit and looked down in. It was still quite light, for jolly, round, red Mr. Sun had not long disappeared behind the Purple Hills, back of which he goes to be every night. Peter gave a funny little gasp and then he swallowed hard once or twice. He could see all over the bottom of that pit and nowhere was Old Mr. Toad to be seen! No air, there wasn't a sign of Old Mr. Toad. Peter rubbed his eyes and stared very hard. What did it mean? What had become of old

Enclosed is a clipping showing the possibilities of a clash between Texas and U. S. forces over the oil situation.

Will there be an army showdown if Governor Sterling does not accept the Federal ruling and a clash comes that might raise a rebellion? Say for instance, that the governor of Nebraska would send state troops to help Texas, that the governor of Oklahoma would send his troops to help Texas. Also that the governor of Virginia would send his troops.

What would Dan Turner do? He would be in a heck of a fix, for he could not help the federal troops, neither could he send his troops to help Gov. Sterling, for he has to keep his soldiers here to hold old bosses tail up.

Could you have a cartoon fixed on this and have it printed in the Free Press?

If you wish to use my name to the article you are welcome. I am for you 100 per cent for governor of Iowa, and for the one plan farm unit.

Sincerely,
Solomon Tripp, Danville, Ia.

Mr. Toad? Where had he gone to? Had some enemy found him a helpless prisoner there and caught him? That didn't seem possible, for Peter couldn't think of any one who would dare go down in that hole or who could get out again if they did go down.

RADIO BEACON FOR REEFS

MIAMI, Fla. — (INS) — Fowey Rocks Lighthouse, just south of Miami, Fla., and at the Florida Reefs, has just been equipped with a radiobeacon and with a more powerful light. It is intended to facilitate the passage of the reefs, making safer the accomplishment of the big seaplane turn which begins at Miami and ends 200 miles to the south and westward at Dry Tortugas. Strong currents are encountered along these reefs, and their exact effect on the position of a vessel is often difficult to determine.

ADMISSION TO THE HOSPITAL

(Being a recital of what practically happens when a man takes any of his loved ones to the modern hospital.)

The scene is a hospital. A woman has been suddenly stricken and rushed to the institution. Reservation of a room has been made. Her husband, a responsible business man, makes the trip to the hospital with her. All human kindness, to say nothing of common decency, requires that there be no delay giving the stricken woman immediate relief from her agony. There is the usual and perhaps necessary delay in recording the case in the admissions office, but this is only the half of it.

Husband (assisting the patient toward the elevator).—This way dear. You'll be all right very soon now.

Voices.—Just a minute! She'll have to sit here a few minutes.

Husband (quite puzzled).—Sit here?

Voices.—Yes, you'll have to see the cashier first.

Husband (incredulously. See the cashier, did you say?)

Voices.—Yes, down the hall, third door to the left.

Husband (still finding it difficult to believe that at a time like that there should be major concern for the cashier.)—You mean it is necessary for me to see the cashier before this lady is made comfortable?

Voices.—Yes. You'll have to pay a week in advance before she can be taken to her room.

Husband.—Are you really serious?

Voices.—Yes, the lady can sit here while you see the cashier. Third door down the aisle.

(The husband, amazed and outraged by a code which makes the payment of money the first consideration in a matter of life or death, places his wife in a chair, urges her to be patient and goes to the cashier's office.)

Husband (impatiently).—What am I supposed to do, please?

Cashier (languidly). About what?

Husband.—My wife is very ill. I have engaged a room here. They won't give her attention until I see the cashier.

Cashier.—Got the slip?

Husband.—What slip?

Cashier.—The entrance slip?

Husband (realizing for the first time that he has been handed some papers).—Oh, you mean these.

Cashier (looking them over very leisurely).—Them's them. It'll be \$248.32.

Husband.—There's no time to discuss it, but I thought the room was \$15 a day.

Cashier (bluntly).—We charge operating room, laboratory use, nurses 'n' everything, and then if there's anything coming back you get it on the second week. You see it's like this . . .

Husband (at his wits end).—

They know me here. There has never been any question anywhere about my credit. It will be a matter of human kindness to get my wife under treatment at once and then come down and do whatever is necessary.

Cashier.—It's against the rules. Husband (quite indignant).—Suppose a patient is dying?

Cashier.—We can't admit anybody without a week in advance. A lotta people would never pay us. It's a rule and . . .

Husband (realizing that there is nothing any colder than the atmosphere of a hospital office).—Oh very well.

(He makes out a check, waits several moments for the proper papers, rushes out to his wife, gets her ultimately to her room and is pacing the corridor when an attendant comes out of the elevator, rather comically.)

Attendant.—Mister, didja see the cashier?

Husband (going suddenly quite berserk).—No, I've changed my mind. This is a hospital, isn't it?

Attendant.—Yes, sir.

Husband.—Well I've decided to take the patient to a convention of coin collectors instead. They'll react more swiftly to human suffering there.

IRISH WHIP PITT, 25-12, TO CONTINUE VICTORY MARCH

PITT TO MEET ARMY FIRST TIME NOV. 14

Eighty Thousand Fans Expected to Watch Headline Battle

The Pitt Panther and the Army Mule will now start pointing their feet in the same direction for the first time in the history of the game.

Between now and November 14 the Army will meet Colorado College and Louisiana State, and Pitt will meet Penn State and Carnegie Tech.

The Army may have its hands full on one of the two Saturdays intervening, and Pitt may have considerable trouble downing its old rivals from the other side of Forbes street, but should have a fairly easy test last Saturday at Penn State.

Their first meeting. Two years or more ago Pitt and Army signed up for the 1931 game—their first meeting in football.

At that time the athletic officials of the two institutions had not the slightest idea what sort of teams would be the field this year.

Army always has a team strong enough to attract national attention and the same generally is true of the Panthers.

But it so happens that both teams are of unusual strength this year and their meeting will be of national interest.

Last year Notre Dame visited Pittsburgh and put a record crowd in Pitt Stadium.

Expected 50,000 Crowd. This year's Army game crowd will be even bigger. At least 25,000 more tickets could have been sold last year but there wasn't room.

As it was many temporary seats were provided. This year a more compact seating arrangement has been made and the capacity with the addition of the temporary seats, has been increased by about 5,000. It is likely, therefore, 80,000 will see the Panther and the Mule.

The football battle is not the only attraction. Pitt is noted on having the Cadet Corps and all of West Point is going out to inhale a little smoke and do some fire eating as well. It will be quite a show.

There are a lot of good games that afternoon. Syracuse and Colgate for instance. And Dartmouth and Cornell, New York and Fordham, Georgia and Tulane, Harvard and Holy Cross, Notre Dame and Navy, Ohio and Wisconsin, Vanderbilt and Tennessee and many more.

Looks Like Headliner. But no game on the schedule is going to put the meeting of the Army and Pitt in eclipse. That looks like a much stronger team this year. Jack Sutherland has a veteran line, with fine ends and two of the best tackles in the country.

And in the backfield he has a set of youngsters who have speed and dash. Reidner and Heller, the halfbacks, rate with the best backs in recent Pitt history.

Sutherland has two fullbacks of class. One is a little fellow, the babe of the backfield, Jimmy Clarke, and the other a heavyweight, John Luch. They play a different style of game but each is mighty effective, and Sutherland generally uses both of them. One to dash through the small holes, the other to pound the opposing line.

Irish Spoil Record. Pitt had a wonder team in 1929, but one that was tricked into thinking Southern California wouldn't do any forward passing. New Year's Day spoiled everything for Sutherland's men.

Last year they had only a fair team but were plugging along indistinctly until Schwartz, Savoldi and their mates cut loose and ran up 35 points in the last half—in what Rockne described as the smoothest Notre Dame functioning of the season.

Pitt had quite a star quarterback last year in Eddie Baker, but the rest of the team was all-star in class. This year Sutherland started off with everything needed with the exception of an experienced quarter. And yet he seems to be getting somewhere with Hogan, a sophomore, at the post. Hogan is pulling through nicely and getting experience. So Pitt next year should have one of the best backfields in the country. Sutherland knows that right now.

And this year's backfield isn't so bad, even with a sophomore at the important position.

It is a team that is going to give Army a mighty busy afternoon. And the echoes of the Pittsburgh hills may carry considerable distance that afternoon. This game may have considerable bearing on who's who in 1931.

LITTLE MUSKIES BEATEN IN MEET AT PARK COURSE

Ottumwa Harriers Win in Cross Country Race Saturday

Coach Leonard E. Hunn's Little Musky harriers long string of victories was broken Saturday afternoon at the local Wead park course in the second annual cross country invitational meet when three runners from the Ottumwa high school placed among the first six to defeat the locals for first place with a score of 13 to 33. Nine teams competed for honors in the race.

The harriers from Dixon, Ill., placed third with 36 points and those from University high of Iowa City placed fourth with 46 points. The other five teams running had the following scores: Washington, 47; Iowa City, 48; Clinton, 57; Bonaparte, 75 and Dubuque, 78.

Kinsinger Wins Meet. H. Kinsinger of Ottumwa won the meet in the comparatively fast time of 11 minutes and 35 seconds. This time, however, does not break the meet record of 11 minutes and 21 seconds, which was set by Bob McElroy of the Little Muskies last year.

Little Musky runners placed second and third respectively. Warren King followed Kinsinger to the tape with Capt. John Wilson close behind King. As the first three snatching on each team count in the scoring and due to the fact that the next two Ottumwa runners placed low enough to outscore the third Little Musky runner, the Ottumwa team won the meet.

Other Place Winners. V. Phillips of University high of Iowa City came in fourth with 11 minutes and 45 seconds. Following Phillips came the following: Mehners of Clinton; R. Beebe of Bonaparte; Padgett of Dixon; Hasseltine of Washington; Compton of Dixon; Hood of Ottumwa; Ramsey of Dixon; Embree of Washington; McDonald of Clinton; Wilhaus of Dixon; Campbell of Waukegan; Runner of University high; Holderness of Iowa City; Frederick of Washington; Lindefer of Iowa City; Adams and Meintzer of University high; Royce of Dubuque; Lucas of Dubuque; Dattelman of Dubuque; Tipton of Muscatine; J. Beebe of Bonaparte; Minden of Washington; Christensen of Iowa City; Stieren of University high; Toney of Washington; Nelson of Clinton; Olson of Muscatine; Elgerson of Muscatine; Hogan of Bonaparte; Roose of Iowa City; Brinkhart of Dubuque and Sigle of Ottumwa.

Two Oversized Prize Fighters to Box in New York

By LES CONKLIN INS Sports Writer

NEW YORK—Jimmy Johnston, recently engaged to put Madison Square Garden's boxing department on its feet, scored his second bullseye in as many shots Saturday when he lined up a fifteen-round bout between Primo Carnera and Victorio Campolo for the Garden on Nov. 27.

This match is a "natural" that has been talked of ever since the two oversized foreigners came to this country. Campolo is the tallest heavyweight in the world and Carnera is the biggest, Primo weighing about 265 and Victorio 228.

The winner will become the champion of Professor William Muldoon's "Dreadnaught Division." Ignoring the fact that these oversized fellows have been suckers for fighters like Dempsey, Sharkey and Schaefer, the venerable dean of the New York boxing commission Friday dictated the ultimatum that they must fight men their own size.

In the "Dreadnaught Division" Prof. Muldoon lists such pachyderms as Carnera, Campolo, Walter Cobb, George Godfrey, Jose Santa, the Portuguese Blimp, and Ray Impel, 265 lb. Brooklynite. A little "Dreadnaught" is a fighter at least 220 pounds in weight and not less than 6 feet 3 inches tall.

For a couple of hours Friday it looked like a hard winter for Carnera. The boxing commission refused to let him fight Paulino Uzcudun, and then it turned thumbs down on a Carnera-Loughran match. Just as Primo was beginning to fear he would have to join the army to fight, Johnston bopped up with the Carnera-Campolo match.

Must Be Members. Teams from any local factories or business houses are eligible providing the name of the team hold membership to the Rifle club. Several other smaller matters were brought out at the meeting regarding future outdoor shoots at the newly constructed range on the Charles Timm farm near Lowe Run.

A committee of three members were appointed at the meeting to investigate for a suitable place to build an indoor range and this committee was asked to report the results of their investigation at the next meeting.

Women's Auxiliary Planned. The club also voted to make a women's auxiliary a regular part of the club. The membership fee for the women's auxiliary will be \$2 a year it was decided.

It was also agreed that the Muscatine county vigilante association could use the range at any time the club did not have a scheduled shoot.

This afternoon the third shoot of the outdoor season will be held on the range at Lowe Run in the form of a pistol match. The match will be over the 25 yard range at a bobbing target and all members who will compete in the shoot must use revolvers of .38 caliber or larger.

HELEN WILLS AND COCHET TOP LIST OF WORLD'S BEST

English Lawn Tennis Writer Gives Vines Third Position

By CHARLES A. SMITH (INS Staff Correspondent)

LONDON—Helen Wills Moody of California and Henri Cochet of France are ranked as the number one lawn tennis players of the world by A. Wallis Myers, noted English lawn tennis writer, in his annual ranking list of the foremost men and women net stars.

Two United States women players, four English girls, two Germans, one Frenchwoman and one Spaniard form Wallis-Myers' selected band of ten women stars.

Of his ten male stars, five are Americans, two are Frenchmen, two Englishmen, and one a son of Nippon.

Wallis Myers classifies his women net experts as follows:

1. Mrs. Helen Wills Moody (United States).
2. Fraulein Aussem (Germany).
3. Mrs. Fearnley Whittingstall (England).
4. Miss Helen Jacobs (United States).
5. Miss Betty Nuthall (England).
6. Fraulein Krahwinkel (Germany).
7. Mme. Mathieu (France).
8. Senorita de Alvarez (Spain).
9. Miss Phyllis Mudford (England).
10. Mrs. Putnam (England).

The unquarrelable Helen and Fraulein Aussem were placed first and second respectively in Wallis-Myers' 1930 list.

The male players are ranked in the following order:

1. Henri Cochet (France).
2. H. W. Austin (England).
3. E. Vines (United States).
4. F. J. Perry (England).
5. P. X. Shildes (United States).
6. S. H. Wood (United States).
7. Jean Borotra (France).
8. G. M. Litt (United States).
9. J. Satch (Japan).
10. J. Van Ryn (United States).

Cochet heads the list for the fourth successive year.

CHICAGO—(INS)—Northwestern is regarded as the outstanding title contender in the Big Ten following its 10 to 0 victory obtained over Ohio State Saturday afternoon chiefly through the efforts of "Pug" Renner and Ollie Olson.

Renner galloped 50 yards through a broken field in the third quarter to score the Wildcats' touchdown.

Olson, although not in the best condition, topped off the game by dropping a field goal from the 33 yard line in the last period.

Michigan's powerful eleven, which Ohio upset last week, recovered its drive at Champaign Saturday and walked over Illinois, 35 to 0. The defeat was a big disappointment to thousands of homecomers.

Gophers Strong Contender. Minnesota, at Minneapolis, proved a strong contender for titular honors by opening the conference season with a 34 to 0 win over Iowa.

Notre Dame rolled up a 25 to 12 victory over Pittsburgh at South Bend in another midwestern game which attracted wide attention.

The contest was fought hard all the way, and neither team had been previously beaten this season.

The Purdue Boilermakers, despite a large hospital list, scored 13 points to Carnegie Tech's 6 at Pittsburgh. The game was played in a drizzling rain.

Penn Trims Badgers. Wisconsin, which turned in a surprise victory over Purdue last week, went down to defeat before Penn at Philadelphia. The final score was 27 to 13.

At Chicago, Indiana defeated Chicago 32 to 6. The Maroons were unable to stop the passing attack launched by the Hoosiers.

vaunted Trojan power attack of the University of Southern California to a score of 6 to 0.

Overwhelming favorites to win almost as they chose, and favorites in the betting to win by at least 20 points, the Trojans had to battle as never before this season to eke out a one touchdown margin of victory over the fighting Bears.

With perfect interference paving the way for long runs by a pair of brilliant backs, the Fort Madison high school griders swept down the field for four touchdowns Friday night under the floodlights at Jefferson field in the "Dad's Day" contest to defeat the Little Muskies, 24 to 0. Three of the six punters in the last half.

It was John and Sharp, two ball carriers destined for all-star honor, that spelled defeat for Muskatine. These two stars, behind beautiful interference, swept around the ends, cut off the tackles and played the center of the line for 13 first downs. Many times one of these backs would break away into the clear for gains of 30 and 40 yards.

There was just no stopping the down-running attack the visitors presented. The down-river aggression completely outplayed and outgained the local defense. They punted only in the first quarter in an attempt to work the ball into Muskatine territory and once they got it there, it was there that it stayed.

Score 6 to 0 at Half
 Muskatine's running attack just wasn't. Only one first down was made in the first half and only after the Fort Madison coach had sent in a flock of substitutes could the locals gain through their forward wall. The locals collected only 5 first downs.

There was only one touchdown made in the first half, that coming in the middle of the second quarter in a drive which started from the Muskatine 45-yard line. A pass from Sharp to Craine placed the ball on the 32-yard line and then Johnson and Sharp slipped off the tackles for another first down on the 17-yard line. Johnson and Sharp again alternated at carrying the pigskin and when the ball came to rest was found on the 5-yard line. Johnson then spun through center for the first touchdown. The try for extra point failed.

Johnson Goes Good
 At the beginning of the second half the visitors substituted possession of the ball on the Muskatine 49-yard line. Sharp carried it to the 35-yard line for a first down and then broke through right tackle and followed by four teammates, crossed the goal line unmolested. Again the try for extra point failed.

Minder punted to Johnson on his 8-yard line and he carried straight down the sidelines untouched to cross the goal line. However the play was called back to the Muskatine 25-yard line where a Fort Madison blocker had been caught clipping a Muskatine player and the visitors were penalized back to midfield. This failed to stop them from scoring for they started another drive from here with Johnson, Craine and Craine straight down the field for another score. Not a Muskatine man touched the brilliant back as he raced through the line of scrimmage. A smash for the extra point again failed.

PLAY BY PLAY

Light Heavyweight Title at Stake at Kansas City Nov. 2
 The world light heavyweight championship title will be at stake here November 2, when Maxie Rosenbloom, title holder, meets Battling Bozo, one of the outstanding fighters of the south.

The bout, a twelve-round affair to a decision, is under the promotion of the American Legion. It will be one of the first big fights here under the new state law permitting decision fights.

Between halves, four Muskatine high school girls gave a tumbling exhibition and the Rotary Band paraded the field and played several numbers. McIlrath with the assistance of Al Barry, presented the parents of the A squad members to the crowd during the intermission at half time.

GREENBUSH READY FOR GAME WITH CARDINALS TODAY

Biggest Turn-Out of Year Expected at Rock Island

Cardinals Pos. Greenbush
 Kassel L.T. Schwaner
 Slater L.T. F. Barth
 Kneeling L.G. Mager
 Erickson C. Fender
 Diehl R.G. Key
 Williams R.T. Ash
 Rogge R.E. Bradley
 Malloy Q.B. Moser
 Glasgow L.H. Knaushus
 Roeder R.H. Olson
 Nevers F.B. Schroeder

ROCK ISLAND, Ill. (Special)—The Greenbush, Illinois Valley pro champions in 1930, are ready to try their grit against the dazzling attack of the Chicago Cardinals here at 2:15 p. m. today in the high school stadium. Coach Ernie Nevers, all-time All-American, and his 23 teammates arrived Saturday afternoon at 2:30 and worked out at the public school stadium.

Providing the weather is satisfactory, the biggest crowd of the year is expected to watch Bill Glasgow, Ernie Nevers, Walt Holmer and "Chuck" Kassel perform. Arrayed against these former collegians will be "Whitney" Schroeder, Mart Knaushus and Walt Moser, the "Big Three" of the home club.

Oration For Slater
 It will be the first time that a national pro league eleven has appeared here since 1927 when the Rock Island Independents played the most powerful teams in the United States and always made a good showing. "Duke" Slater, giant linebacker of the Cardinals, will get a big ovation when he runs on the field for the game, eager to get the Independents.

A similar reception will be accorded Mickey Erickson and Walt Holmer, former Northwestern stars, who started their grid careers at Moline high under Coach George Sennoff. Holmer earned all-state honors while in high school.

Free Parking Space
 Many students and alumni from the University of Iowa have reserved seats for the game, eager to get another glimpse of Slater and Bill Glasgow, former Old Gold athletes. Those who were thrilled by the feats of Kassel when he was captain of the "Fighting Illini" in 1929 are also planning to be present. Box office will be open at 12:30 and the Eagles band will parade. Plenty of free parking space is available.

Besides the battle for scoring honors between Glasgow and the Cardinals and Knaushus, and Moser of the Cardinals, fans will get a great punting duel between Holmer and Schroeder. Both can boot the pigskin 50 yards most of the time and while Holmer is a more experienced kicker than Schroeder, he will find the Rock Island youth a worthy rival.

GRID PLAYER'S NECK BROKEN

Star Right End of Army Suffering Serious Injury

NEW HAVEN, Conn. (INS)—Richard B. Sheridan, right end on the Army football team, was injured Saturday in making a tackle in the game against Yale, in the hospital here with a broken neck. Dr. Sam Harvey, who examined him, said the condition was "extremely critical."

Sheridan, who weighs only 149 pounds, played a brilliant game at end until he was knocked senseless in the last period. He was carried from the field on a stretcher after doctors who ran to his aid had failed to revive him.

LOUISIANA WINS OFF ARKANSAS

74-Yard Run Defeats Razorbacks by 13-6 Score

SHREVEPORT, La. (INS)—A 74-yard run in the fourth quarter by Tom Smith of Louisiana State University Saturday spelled defeat for the University of Arkansas Razorbacks. The score was Louisiana 13, Arkansas 6.

Former Iowa Stars In Game

Duke Slater, (left), former colored All American grid star of Iowa and Bill Glasgow, another former Hawkeye luminary, are two of the football celebrities who will be seen in action with the Chicago Cardinals against the Greenbush team at Rock Island this afternoon.

FAIRFIELD WINS FROM BULLDOGS

Gluekin's Team in First Conference Win of Season

Coach L. A. Gluekin's Fairfield high school team successfully opened their Little Six schedule Friday night when they defeated the Ottumwa Bulldogs, 13 to 0. The game was the only one on the loop schedule this week.

The comparatively easy victory over the Bulldogs gives the Trojans the inside track at winning the conference. They are at present tied with Mt. Pleasant and Washington State for the lead.

Other Little Six teams played non-conference games. The Little Muskies were walloped at Jefferson field by Fort Madison, 24 to 0, and the Washington Demons defeated Winfield, 19 to 2. Burlington was idle. The standing follow:

	W.	L.	T.	Pct.
Fairfield	1	0	0	1.000
Mt. Pleasant	1	0	1	1.000
Washington	1	0	1	1.000
Ottumwa	1	1	3	.600
Burlington	0	0	1	.000
Muskatine	0	3	0	.000

COUGARS WHIP MONTANA, 13-0

Grizzly Eleven Falls Before Attack of Washington State

MISSOULA, Montana (INS)—Staging a last minute rally, the Washington State Cougars won a 13 to 0 victory here Saturday afternoon at the expense of the Montana Grizzlies.

The two teams battled scoreless through three periods. Montana put up a stubborn defense against everything Coach Babe Hollingberry's last year conference champions had to offer.

In the fourth period, however, the Cougars staged a snappy offensive and the Grizzlies tired by their long battle, gave way.

Washington State showed over two touchdowns and won the game in this period.

MUSTANGS BEAT CENTENARY, 19-0

Southern Methodists Win Handily Over Gentlemen

DALLAS, Tex. (INS)—Southern Methodist University Mustangs put the finishing touches to a perfect day here Saturday by polishing off their ancient rivals, the Centenary Gentlemen, to the tune of 19 to 0 before a crowd of approximately 15,000 rabid fans.

CAREY WILL LEAD DODGERS IN 1932 BASEBALL BATTLE

Will Succeed Wilber Robinson as Pilot Of Brooklyn

By FRANKLIN GRANT
 INS Sports Writer
 NEW YORK—"If it couldn't be Robby, then it's a great break for the Dodgers that Max Carey will be the 1932 chief pilot" is the comment over the passing of Wilber Robinson, as leader of the Dodgers, and the succession of Carey to his throne over the Brooklyn team.

"The Dodgers, with Carey teaching them, ought to become the running fools in the major in 1932," was the comment of Carey's friends and also the Brooklyn fans.

"No man, barring perhaps Ty Cobb, ever was a better sock swifter than Carey. No man ever was a better teacher of the art. Carey always has felt that baseball games are won—and lost—on the paths, and because of this belief, it is a moral certainty that he will be showing those Dodgers how to run—and run still more."

When Carey was assisting Robby as boss of the Dodgers a year or so ago, the Dodgers were the best stealers in the league, despite the fact that before Carey's arrival the team, as a unit, was regarded as a bit truck horsey.

Carey's personal popularity, plus his knack as a teacher in all things that have to do with baseball, should assist him greatly in becoming a success in Brooklyn. He inherits a team that has a punch; a club that has a lot of seasoned players, plus some talent. He will have free rein.

ST. LOUIS TEAM BEATS GRINNELL

Billikens Win, 43-6, Victory From Pioneers

ST. LOUIS (INS)—A highly polished St. Louis University football team boasts of a 43 to 6 victory over the pioneers from Grinnell College, Iowa, following the local triumph over the hitherto undefeated Iowa at the Edward Walsh Memorial Stadium here Friday night.

The game was a climax of the local homecoming celebration, and more than 10,000 persons saw the Billikens win fourth game out of five starts this campaign. Only Illinois University has beaten them.

The locals started off with a rush, scoring the first of seven touchdowns on the third play after the initial kickoff. The Billikens' second touchdown came four minutes later. Grinnell rose to its might at this juncture of the game, however, and unearthed a brilliant passing attack that netted their lone tally.

Shortly after this the pioneers continued their attack toward the Billikens goal, combining their aerial barrage and dashing runs by Thomas, Pioneer quarterback, and James Grinnell, halfback, placed the pigskin on the local ten-yard line. However, the Billikens braced and in three thrusts at the local's forward wall gained only four yards.

On the last down, James Grinnell, in a wide sweep around the flank and should have crossed the goal, but he slipped and fell, and before he could regain his feet, he was downed by three Billikens forwards.

Exhibited a sensational running attack, which was featured by the spectacular flank runs by Joe Stephens, Stellar, Billiken halfback, who scored three touchdowns. The victors also displayed a powerful plunging attack, which was largely responsible in placing the oval in positions to score on several occasions.

Coach Chile Walsh used 33 Billikens during the contest. At the half time, a musical program by "Old Grad" soloists, accompanied by a pianist, rendered several vocal selections over the amplifiers from the press booth.

KANSAS STATE BEATS SOONERS

Wildcats Capture 14 To 0 Victory off Oklahoma U.

MANHATTAN, Kan. (INS)—The Kansas State Wildcats captured their rampaging ways Saturday by defeating Oklahoma University 14 to 0. Kansas State thus remained undefeated in the three conference victories.

After an unsteady beginning, in which both teams fumbled to present their opponents with scoring opportunities, the game settled down to hard, brilliant football.

Late in the first quarter Ray McMillan heaved a 40-yard pass to "High Henry" Cronkite, Aggie captain, who ran the remaining ten yards for a touchdown. Auker kicked goal.

The second touchdown was the result of a sustained power drive, which battered down an Oklahoma line defense hitherto impregnable. Starting on their own 7-yard line, Kansas State hammered over the goal in 19 plays and on 13, including the last Ramblin' Ralph Graham, Aggie sophomore fullback, carried the ball.

Auker, who punted, passed and expressed around the Oklahoma ends, shared honors with Graham and Captain Cronkite, though McMillan, Wiggins and Hersh in the backfield and Michael, Zeckler, Stephenson and others in the line were all that could be desired.

Speedy Captain Warren of Oklahoma was bottled up before he could get off his long dashes and Ellstrom did most of the sooner ground gaining. Ted and Wilson in the line were pillars.

The board of education has granted the use of the Jefferson field while the trustees of the water boards have agreed to donate the use of the lights. Officials which will donate their services are Happy Hildebrand of Letts, Olin of Durant and Al Barry of Muskatine.

The Rotary Boys Band will be on hand to play several numbers before the game and during the half. All proceeds will be turned over to the committee on unemployment of the chamber of commerce.

VETERANS' NEWS

Drum Corps, Legion Seek to Help City Out of Depression

The American Legion and the Legion drum corps during the past week started something in Muscatine. Since the successful membership drive of Saturday, Oct. 17 and the attendant celebration the all has been thick with rumors and plans for other entertainment. The Legion again has performed a distinct service to the community. By putting pep and life into the town through drum corps parades and with the aid of its comedy "Sooner" band the Legion is showing the way back to good times. These celebrations and "Whoops" nights as planned will attract many visitors to Muscatine. It may be silly, but it helps keep all in good humor and as long as a laugh is provided once in a while, "old man depression" will be knocked for a row.

Veterans Will Hold Installation Nov. 3

Plans are going forward for the installation ceremony of John Harold Kemble Post, Veterans of Foreign Wars and its auxiliary. The date has been definitely decided and Tuesday, Nov. 3 will see the new officers seated. The full list of officers has not yet been announced. Appointive offices are usually filled upon the night of installation. Quarters in the city hall being too small to put on the work, another hall will be rented for the evening. Delegations are expected from the surrounding cities in which the women's posts of the Veterans of Foreign Wars are located.

Halloween Party Is Held by Vets Group

The annual Halloween party of John Harold Kemble Post, Veterans of Foreign Wars and its auxiliary, was held Friday night with a large number of members from both organizations attending. Bunko, bridge and five hundred were played, followed by a real feed, furnished by the ladies. Many more social meetings of a like nature are planned for the winter months.

LEARN TO KNOW THE RIGHT WORD

By W. C. Nicholson

REWRITE THIS
The unknown person mentioned in the last installment of "The Right Word" will be interested in the following paragraph found in the speech he submitted for discussion.
"The third class of men (most objectionable of all) who came here for the purpose of personal, or political aggrandizement and bases his actions upon trades and traffics in securing patronage from the governor and the different departments of state, to get on pay rolls, school land loans, and positions and remunerative connections with the relative, associates and friends."
What is wrong with the verb "bases"? Are the last few lines clear to you? Does one "get on" a school land loan, or a position? Is this a sentence? No doubt we all know what this paragraph means, but can it be better worked? Should you like to try reconstructing it? I think I hear a whistling answer, not from one only, but from many. Try it. Send your final revision to "The Right Word," care of this paper. Later if there are two or three really good revisions, "The Right Word" will try to publish them.

Yesterday's error: the writer of this column found quite a few mistakes.
Correct: the writer of this column found a considerable number of mistakes (or many mistakes).
Try to avoid the expression "quite a few." "Quite" should not be used with a word whose meaning is as indefinite as that of "few." (Copyright 1931 by Associated Newspapers)

GERMAN PRODUCTION
WASHINGTON.—(INS)—Exports of iron and steel products from Germany rose during August while the import trade was registering a considerable decline, according to dispatches received from Acting Commercial Attache D. P. Miller, Berlin. In all 277,011 metric tons of these materials were dispatched from Germany—a gain of 13,045 tons or about 5 per cent—the import trade declining 7,860 tons or about 10 per cent to total 67,782 tons. The picture presented by the statistics of production is not so favorable as is that of the foreign trade. The output of pig iron during August dropped to 499,098 tons from the July figure of 569,301 tons, a reduction of 70,193 tons, while the output of crude steel dropped 114,289 tons to the low figure of 888,972 tons. Steel production, then, was the steel of 42 per cent of capacity during August. The number of blast furnaces lighted at the close of the month was only 66, 3 less than at the end of July.

LIBRARY SCIENCE COURSE
DENVER.—(INS)—Miss Caroline Howe, formerly librarian at the University of Chicago, initiated a course in specialized training in library science at the opening of the fall term of the University of Denver. The library course, the only one of its kind in the west, will provide training of library experts to serve a specialized class of clients. The course was made possible largely through the Rockefeller Foundation.

"Jack Tarr," Legion Show, Declared Hit

The Ladies auxiliary of the local Legion post, successfully put over their home talent play "Jack Tarr" last week. At both Wednesday and Thursday night's performances the house was full to capacity. The profits derived from the presentation of this play will be used by the auxiliary for relief work in the community.

War Veterans Post Prepares for Roll Call of Red Cross

William J. Jeechka, roll call chairman of the American Red Cross drive for members, announced that John Harold Kemble Post, Veterans of Foreign Wars, will be ready to start the campaign on Armistice day and continue until Thanksgiving day. It is felt by the local post that all former service men are under obligation to the Red Cross and they are urged to repay the debt with membership. The Cross and the Veterans of Foreign Wars, if eligible.

Antics of "Sooner" Band Enjoyed Here

Last Saturday, immediately after the drum and bugle corps completed its parade through the business district of Muscatine, the band made Muscatine famous at the Detroit convention by proving itself more interesting than even the annual "Forty and Eight" parade, made its first public appearance. Its "Goofy" outfit and at no time does it or will it take things seriously.
Costumed in outlandish attire, the "Sooners" stepped off in irregular formation and played their way into the various stores, restaurants and other places of business. So popular has the Sooner become that they have been booked to appear at many local affairs both in Muscatine and surrounding towns.

Immediate Payment Of Certificates Is Asked by Veterans

Petitions are being circulated by the Veterans of Foreign Wars to obtain the immediate cash payment of the adjusted service certificates. These petitions are to be presented to President Herbert Hoover and the United States congress. With the circulation of these petitions for service men are given an opportunity of expressing their sentiment in regard to this legislation. The Veterans of Foreign Wars are of the firm belief that the majority of members in all veterans' organizations are in favor of the proposition, regardless of what action might have been taken at the national convention. The Veterans of Foreign Wars are duty bound by the vote of their encampments for the past three years to continue the fight for payment of the certificates, regardless of what other veterans organizations do. All members of the organizations who want cash now for their adjusted service certificates are urged to help by placing their signature on the petition.

October 28, 29 and 30 are the dates on which Miss Ada Smith, county superintendent of school will conduct the uniform county teachers examinations. The Code of Iowa requires that all applicants for teachers' certificates shall have completed an approved four year high school course or its equivalent and shall have had before receiving certificates to teach, at least twelve weeks of normal training as approved by the state board of educational examiners. All applicants who have earned passing grades in one or more of the first grade county certificates subjects will be given until January 1, 1932, to complete their records. October 28, 29 and 30 being the last regular examination before this date, all records must be completed in this examination.

Chester E. Conner of Monmouth, Ill., who is interested in the subject of art spoke before the high school assembly Tuesday afternoon on "Abraham Lincoln." This is the third time Mr. Conner has addressed the high school.

MANY TO GIVE TESTIMONY FOR NORMAN BAKER

Depositions Number Over 100 in Suit Against Medica

More than 100 depositions from persons reading in a wide range of areas who have been successfully treated at the Baker hospital at Muscatine, will be introduced by attorneys for Norman Baker when his \$500,000 damage suit against the American Medical Association is heard in the federal district court at Davenport on Feb. 6, 1932.

A trial notice of the case had been filed for the fall term of federal court which opens next Tuesday. The case was deferred when attorneys notified the court that they were not ready to proceed. Only Case Scheduled
The trial is set for a mid-term date, coming between the closing of court at Council Bluffs and the opening of the spring term at Davenport. There are no other cases scheduled in Iowa between January and April. As the case is expected to occupy from three to five weeks the selection of a mid-term date is believed to allow ample time for preparation by the attorneys.

The case will probably be tried in one of the court rooms of the Scott county court house owing to the fact that the federal buildings at Davenport is being replaced. The case was filed at Muscatine on Sept. 22, 1930 from the district court at Muscatine.

Large Legal Array
Attorneys Stanley and Hervey and J. F. Devitt of Muscatine will represent Mr. Baker, with two firms, Dutcher, Halker and Riles of Iowa City, and Loesch, Scofield, Loesch and Burke of Chicago for the association.

DISTRICT COURT

A petition for a bootlegger's injunction against Walter E. Boyster, who was fined \$300 and costs and given a suspended sentence of three months by Judge C. L. Ely last week, was filed Saturday by County Attorney H. E. Wilson.

The will of Emma Steen was admitted to probate Saturday and Matilda Hoeftin was appointed as executrix in accordance with its terms.

The report and petition of Grace E. Appel, guardian in the estate of Mary Elizabeth Appel, a minor, and asking the court to approve the purchase of \$500 stock of the Muscatine Building and Loan association, was filed by Attorney H. C. Madden Saturday.

Minnie Brown, Lister Koeppling and Mary Fuhlman, sisters, filed application in court Saturday, asking the court for an order for distribution of \$7,000 of the cash assets of the \$15,000 estate of John Danx. The petition states that the heirs are all poor and desperately in need of money. Each of the three is entitled to one-third of the estate. The applicants are represented by Attorney H. M. Bartlett.

Guards' High Handed Methods Revealed in Lenker's Arrest

Cedar County Farmer Tells Experiences While Prisoner

J. W. Lenker, Cedar county farmer, arrested on Sept. 24 by national guardsmen, will have his hearing Tuesday before Judge Atherton B. Mark, of Cedar Rapids. It was announced at the trial of Paul Moore, West Branch, on a like charge, is also scheduled for Tuesday.

Although the hearings are scheduled in the district court at Tipton, William Dallas, county attorney of Cedar county, has indicated that he may ask a change of venue. The men will be represented by J. C. France, Tipton attorney.

Mr. Moore was arrested in Des Moines and brought to Tipton where he secured his release within a few hours under bonds of \$10,000. Mr. Lenker remained in custody for two days and his experience as a prisoner are told in the following statement by him:

Arrested At Home
"I was sitting at home with my wife and children on the 24th of September. At about 7:30 o'clock General Haines and seven truck loads of soldiers and veterans came to my place and asked to see me, and I went out. Then Mr. Haines said to me, 'We came to test you cattle.' I told him I had no cattle, I had sold them, so Mr. Haines said to me, 'Then you are our prisoner,' so from there they took me out to the farm with soldiers, one on each side of the car, with a big revolver on their hips, and took me to Findley's office, which was the secretary's office at the fairgrounds. Then they said, 'This is the man we want after.' I said to Mr. Findley, 'I'm entitled to counsel,' Findley says to me, 'You're entitled to nothing, move on.' They then took me to a horse shed and they made me come with the fair grounds, and put me in a horse stall without a chair or anything to sit on. I stood up as long as I could stand it and then I sat down on the floor.

"Presently the captain of the soldiers came along and asked me, 'Would you like a chair?' I replied that I always used a chair to sit on at home. Waiting some time about an hour, I was taken to a room with an old cot, which I sat on. When dinner time came they furnished me with something to eat.

Guards Carried Guns
"At about two o'clock, three or four guards came along with me by my door and said, 'Lenker, come let's go,' so I got up and we went out to the car. They sat me in the middle with one soldier on each side with a big rifle and revolver on their hips. One soldier was also sitting beside the driver with a revolver and rifle on each hip. Even the driver had a revolver on his hip, too. Just think all this just to take a prisoner sixty-three years old to Anamosa, and for what?"

"I thought when they went east that we were going to Tipton for hearing but when we reached high way number 38, we were turned north instead of south and went to the Lincoln highway. At this time I thought I was going to Cedar Rapids to the federal court, but when we got to highway number 117, we turned to the right and I then knew that I was headed for Anamosa.

Waits For Hour
"They drove up to Anamosa and asked at an oil station in a very low tone, 'Where is the prison?' and the station man said, 'Up the street a block and a half.' We drove up before the state institution and I sat there for about one hour waiting for someone to take me into the penitentiary. Just why I was guilty of a crime, did it take an hour to admit me to the prison? This convinced me it was a case of high handedness. Finally someone came and said, 'Well come on.' We went into the prison entrance, went through two barred rooms (which I call chicken coops), and then we came out on the yard, and there was a sidewalk some one hundred fifty or two hundred feet long with the convicts lined up on both sides of the sidewalk, and marched me down between these two lines of convicts as a lodge and in a very low tone, 'Where is the prison?' and the station man said, 'Up the street a block and a half.' Medical Control Would Mean Danger To American Public

The last few articles of this series have been devoted to the tendency of organized medicine to enter into political activities on an enormous scale in order to legalize the medical control of the public under the guise of health administrative measures and that of public welfare supervision. The success of the medical men has been illustrated by the enactment of important federal legislation which will have a vital bearing on the health of the nation.

The real danger of Allopathic medical control is due to the fact that so-called preventive medicine with serums and vaccines will be forced on the people and also surgical operation. There is no such thing as a harmless serum in spite of all assertions to the contrary. The uselessness and dangers of inoculation to the use of serums or vaccines of any kind are well known to all physicians, and innumerable published statements by outstanding authorities, even among orthodox physicians formerly favoring vaccine therapy, have been given wide publicity in which they repudiate this method of treatment.

All serums and vaccines have a germ foundation created by human ingenuity that has a deranging influence upon the glandular system. It is the evolutionized germs of devilish human creation that is the basic health-destroying medium of the various disease serums some of which are much more harmful than others. However, it is simply the degree of harm that varies—all have harmful effects even when not apparent immediately. When disease products are injected directly into the blood stream of human beings the result will be disease, certainly it could not be anything else. One cannot expect health to result from planting germs of disease. However, preventive medicine is based on this theory though an increasing number of physicians have been repudiating serum therapy of recent years, and the fallacies of serum and vaccine methods of treatment have been given wide publicity. But in spite of the fact that the theory is based on serious fallacies which are now generally known, still preventive medicine is forced upon the public when medical control is legalized, this is the most menace of medical control by organized medicine. Not only is it a violation upon the people, but it is a vital issue because of the effect upon the health of the individual, and often it is even a matter of life or death. And in many cases children are deprived of an education because of the refusal of the parents to have them vaccinated. Again, in some states the parents have been sent to jail—imprisoned like common criminals—because they wanted to keep their children healthy and their blood pure.

Numerous methods are employed to coerce people into patronizing the doctors and manufacturing drug houses even when there is no law making medication compulsory. In some states and in many cities children must be vaccinated before they can enter school—and the law compels school attendance. Nurses must be vaccinated and inoculated or else they cannot nurse—they cannot enter training. Telephone companies everywhere and many department stores require vaccination before employees can work, and many civil service branches require vaccination. Most large cities require police-

men and firemen to be vaccinated. During so-called smallpox epidemics, Health Boards close factories, stores, etc., unless all the employees of these places are vaccinated. Be vaccinated or lose your job is the verdict.

In most, if not all orphan homes, children must be vaccinated and inoculated and have their tonsils removed or their names remain in the home. In many colleges and universities and many private and parochial schools vaccination is a requirement to entrance.

Health Board regulations in most large cities require vaccination, inoculation and frequent examinations of food handlers, dairymen, public cooks, etc.

Teachers, penitents and browbeaten young children in the public schools when parents refuse to permit them to be toxin-antitoxinated.

Present quarantine regulations make it impossible for any sane orthodox medical man to care for the so-called contagious diseases. Frequently people are deprived of their liberty on the orders of officers of the health department on the supposition that they are "carriers," and they are subject to forcible examination and inoculations of various kinds. Often, too, such people are forced to undergo surgical operations.

Inmates of institutions are required to be inoculated and have other medication whether they wish it or not.

In some states medical examinations of men only, or of both men and women, are required before a marriage license will be issued, though in states having such a requirement, provision is made whereby such parties may bring a certificate from their own family doctor—if he is "regular."

Medical examination of school children is becoming a common practice in practically all communities, and schools are visited regularly by school nurses and school doctors in campaigns under the name of preventive medicine. Soldiers and sailors are compelled to undergo vaccination and inoculations of various kinds and also forced to submit to surgical operations at the discretion of the examining physicians, who of course, are all "regulars," or doctors of the Allopathic school of medicine.

Compulsory medication for all these classes of people, which would make a total of hundreds of thousands, has been going on for years even without definite laws in most instances. Now that important national legislation has been enacted, which legalizes medical control by organized medicine, an even greater number of people will have medication forced upon them and individual liberty will be ignored to an even greater extent which is guaranteed by the Constitution and the Bill of Rights.

PONY EXPRESS VETS MEET
VALLEJO, Calif.—(INS)—Two of the few remaining veterans of Pony Express days have held a reunion here. They are F. W. Derrick, Vallejo city pumpmaster, and William Campbell of Stockton, companion riders in the late '60's and early '70's when the Pony Express bore the mail across the plains. Both men are now in the century mark. After several years of effort, Derrick finally got in touch with Campbell and arranged the reunion here.

MORNING SUN

MORNING SUN, Ia.—(Special)
The first quarterly conference of the year was held in the local Methodist church (Thursday evening). A congregational dinner was served at 7:00. The tables were beautifully decorated with choice autumn flowers, and 110 were present to partake of the bountiful basket dinner, provided by the ladies of the congregation. Following the dinner, Dr. E. A. Bentzinger, district superintendent of Mt. Pleasant was in charge of the quarterly conference.

A meeting of the official board of the Marsh church was held following the morning service, Sunday morning. The regular business was taken care of. Plans were made for the quarterly conference to be held Nov. 1.

The local Sorosis club tied with Salem for the prize for the largest percentage of their membership present at the meeting of the Federated club held at Mt. Pleasant, Wednesday and Thursday.

The meeting of the Marsh township Farm Bureau was held Thursday evening in the Oakland school house with a good attendance. The following officers were elected for the year, president, Glen Cummings; vice-president, Harold Wilson; secretary-treasurer, Mrs. Otto McConahay, chairman of Women's work, Mrs. Donald Cannell. A fine program of songs and readings was given by the pupils of the Orchard Grove and Oakland schools. James Umphrey presided. County Agent Robert Davis showed moving pictures and gave a talk on the county project. Refreshments of pie and coffee were served.

TALL STORY WAS TRUE
LANDER, Wyo.—(INS)—Here's one the game warden believed. Guy Bachus of Lander shot a 250-pound deer with a shotgun, which is against Wyoming game laws. Bachus said he was hunting grouse, missed, and hit the deer, which he did not see. An instructor in the Lander high school had a citizen of good repute, game officials decided Bachus was telling the truth. The grouse was unharmed.

All Day Session Is To Be Held by M. E. Churches Wednesday

On Oct. 28, starting at 8:30 a. m., the ministers and laymen for the Methodist Episcopal churches, of the Burlington district, which includes Muscatine and surrounding counties will hold an all-day session at New London.

Other important events scheduled for the M. E. churches in this area include a delegation which will be sent to the Santa Fe Avenue church at Fort Madison, Friday and Saturday, for the Burlington district meeting. Locally, Dr. E. A. Bentzinger of Mt. Pleasant, will preside at the first quarterly conference of the year to be held Friday night in the Philathean room of the church.

WEST LIBERTY

WEST LIBERTY, Ia. (Special)—Mrs. Copeland Rabe, aged 87, a life long resident of West Liberty and Cedar Valley, died at 7:45 o'clock Thursday morning at the home on East Third street where she has been gradually failing for the past nine months. Funeral services will be held at the home at 2 o'clock Sunday afternoon and burial will be in Oakridge cemetery.

Lydia Nan Fletcher, daughter of Samuel and Rebecca Pickering Fletcher, was born in the Cedar Valley community Aug. 4, 1844. Her mother died when she was nine months old and she was reared by an aunt, Mrs. W. G. Holmes, who lived at Salisbury bridge now known as George Cornell farm.

On July 3, 1861 she was married to Copeland Rabe of Cedar Valley and lived there until 1906 when they moved to West Liberty. July 3, 1926 they celebrated their sixty-first wedding anniversary and July 4, 1927 Mr. Rabe died. Since then she has made her home with her daughter, Mrs. C. C. Brigg.

Eight children were born to this union, six of whom survive: W. F. Rabe of Axtell, Kan., Ed Rabe of Letia, J. C. Rabe of Portland, Ore., A. N. Rabe, Mrs. C. A. Monroe and Mrs. C. C. Brigg all of West Liberty. She is also survived by 12 grandchildren and 6 great grandchildren.

Construction has been started on a road connecting Emmersdale and Quito, Ecuador, 217 miles apart.

Chapter XIX

Vol. 1

Who is this?
This is Eptha. Eptha is a fire chief.
What is Eptha doing?
Eptha is driving a department automobile.
Is he driving it fast?
Very.
What would you say his speed was?
Oh, about sixty miles an hour. Anything less is just a snail's pace to the fire chief.

Where is the fire?
There is no fire.
When Eptha is driving that fast there must be a fire, mustn't there?
Don't be silly.
Then where is Eptha going so rapidly?
He is probably going home to lunch. Either that or down to the store to buy the wife a needle and thread or something.
Do fire chiefs always drive like that when not going to fires?
You can depend on it.

THE STORY OF EDGAR

1.—Hark to the story of Edgar. He was apparently a normal child. All through grammar school he was the brightest boy in the class.
2.—As a youth his mental alertness was widely commented on. Not only that, but he appeared to have horse sense, too.
3.—It was noticeable of him that he was not given to frivolous away his time on unimportant matters. He was the type of lad that made every moment count.
4.—In college he was quite prominent. He went out for the baseball team, but as soon as he saw he could not make the grade he wisely withdrew.
5.—He also tried for the football squad but the moment he proved to his own and everybody else's satisfaction that he was only a palooka

at the game he dropped it without awaiting suggestions from the coaches.
6.—He went in for tennis for a time, but he took it seriously after discovering that he was not the type.
7.—So far so good. But in later years he took up golf in a misguided moment. And that's the funny part of it. From the first time he swung and missed it was pretty clear to him that he was not going anywhere in the ancient pastime. He did everything wrong.
8.—Even after he had spent three or four years at the game he was still terrible, and knew it.
9.—He took lessons, read all the syndicated instructions, talked with good players and followed stars in tournaments to see how it was done,

but he still turned in scores running from 98 to 115 with great consistency.
10.—There never was a moment when he didn't realize that the game was eluding him and that he would never master it.
11.—But did he give it up, just as he did baseball, football and other games he couldn't play? Did he say very frankly, "Since it is obvious that I will never make a golfer I will give up the game, except once in a while?" He did not. 12.—Day after day he kept dishing around the course. And he will be out there digging up divots for years to come. Golfers are like that. There is no known cure.
MORAL: A man may know any other game has him licked but he will struggle with golf forever and anon.

WHAT'S WRONG WITH THESE SENTENCES?

1.—The market expert wrote an analysis of the market that was so lucid anybody could understand it.
2.—The fisherman, when asked how big the fish was that got away, replied, "Oh, just a little bit of a fellow."
3.—"What America needs," declared President Hoover, "is the re-

turn of the saloon."
4.—The people left the railroad dining car with the feeling that the food had been excellent and the price very reasonable.
5.—The golfer, after dubbing a drive, said, "The club is all right. The trouble must be all mine."
6.—The movie actress, upon learning that photographers were com-

ing aboard the liner, ran and hid in her stateroom.
7.—The League of Nations took up a question of international importance and settled it in 24 hours.
8.—Before the musical comedy comedian would use any jokes, he first demanded proof that they had never been stolen from anybody else.

POEM OF LIFE
When money most attractive seems,
Remember that it's not;
When fortune in the offing gleams,
Ignore it on the spot.
Be not attracted by the chase
For riches very great,
Don't strive to keep a killing pace,
Just bide your time and wait.
Dismiss all thought of sudden

wealth.
Let others strive for that;
Be satisfied you have your health,
Tho' pocketbook be flat.
Seek comfort and a happy heart,
Let little things suffice;
Just aim in life to do your part;
Let no rewards entice.
No matter what your station be
Be always satisfied;

The love of coin crush ruthlessly
And don't oppose the tide.
Hold not a single jealous thought
And crave for no man's purse;
Think only as the humble ought—
To greed be most averse.
The lure of riches do not heed—
Don't strive the prize to pluck;
And you'll go far, but you will need
AN AWFUL LOTTA LUCK!

MATHEMATICS

MATHEMATICS
1.—John has \$3; Harry has \$4, and Arthur has 50 cents. Where did they get it?
2.—A car drive a golf ball 300 yards. "B" has no trouble getting 280 on the average; "C" can't do much better than 190 but he seldom

takes more than one putt to a green. Who gets the best score?
3.—If it takes 30 years for boy 8 feet tall to get anywhere in business after graduating from Massachusetts Tech and becoming an engineer, how many months will it take a young man 5 feet 10 inches

tall, weighing 165 pounds, to become a millionaire after graduating from Yale and becoming a radio crooner?
4.—How long will it take five detectives working 24 hours a day to locate in any American city center room enough at the curb to park a car 15 feet long 30 minutes?

ALMANAC—OCTOBER

23, Fri.—Charter of Massachusetts Colony forfeited, 1684. First circus elephant taught to blow a trumpet, 1876. Fancy roller skating balls all the rage in America, 1883.
24, Sat.—German settlers laid out Germantown, Pa., 1683. Folding chair patented, 1808. Custom of playing cards with deuces wild invade North America, 1876.
25, Sun.—British frigate Macedonia captured by U. S., 1813. Am-

ericans begin taking up caviar quite generally, 1928. U. S. Steel common \$190 a share, 1928.
26, Mon.—Erie Canal dedicated, 1825. "Don't Sell America Short" adopted by Arthur Brisbane, 1927. Phil Baker practically abandons accordion as essential to success, 1925.
27, Tues.—Theodore Roosevelt born, 1858.
28, Wed.—Battle of White Plains, N. Y., 1776. Mustache cup invented,

1503. Carpet slipper industry begins to decline, 1908. Wooden tee makes appearance and is received coldly on American golf links, 1914.
29, Thurs.—America threatened with dial telephone, stands shock courageously, 1926.

Nephew of Local People Married Tuesday, Oct. 20

Mr. and Mrs. M. W. Skirien, 605 Woodlawn avenue, take pleasure in announcing the marriage of Mr. Skirien's nephew, Richard Dix, who is the idol of many screen fans.

Mr. Dix was united in marriage October 20 to Miss Winifred Coe of San Francisco, Cal., who is the daughter of a retired wholesale grocer.

The groom attended grade school in Muscatine and completed his high school training at St. Paul, Minn. Upon leaving school he took up theatrical work and has been engaged in the profession for the past eleven years. He is thirty-one years old.

Mr. and Mrs. Dix will reside at the suburban home in Hollywood, Calif., that the groom had constructed at the cost of \$45,000.

Puffed Sleeves Arrive Even in Evening Clothes

PARIS — (INS) — Sleeves are much more than a suggestion this season. Even for the evening they have actually arrived, and as for daytime wear, they are making themselves very much noticed.

Chanel is showing stiff velvet gowns for evening with velvet puffs and double puffs for sleeves, and larger single puffs are found in other houses. Usually these are of the very small puff variety but there is another type which is very short, cut on the bias and looking like a cape sleeve which hasn't been allowed to develop.

Lanvin's smartest evening model is one with very short sleeves taken in one piece with the sides of the bodice and covered with sequins to contrast with the rest of the gown.

Worth and Louischouler have put simple straight sleeves reaching halfway to the elbow on dinner and hostess dresses.

The sleeve cuts in dresses this season seem to have the aim of making the waistline look infinitely slimmer. Cost sleeves are roomier around the armhole.

Some of the designers are widening the shoulders by balloon puffs or epaulettes and others are widening at the elbow.

Many of the new coats and heavy jacket costumes for winter. Gowns also form cuffs and even half the sleeves on many others.

A warm kasha two-piece frock of brown and chartreuse, to be worn alone on warm days, and under a coat when it's chilly. (Sketches in a New York Shop.)

antly perfumed way, that sun tan which whispers of long, idle summer hours with nothing to do but back! And, of you're blonde, and love the new aquamarine blue for your clothes, you just know that this sun tan accents and gives a touch of the bizarre, the unusual, to your charms. On the other hand, if the new frock you have bought is a love and a dream, but would look like a nightmare with tanned skin, Patou has the other preparation which keeps your skin an alabaster loveliness of color and texture.

So there you are—sult your fashions with your complexion! Be white one summer, and brown the next. And above all, thank Jean Patou for making this dual complexion available in answer to our hesitating indecision!

THE one thing you just can't tell about these days is the weather, next-est pass? What with one day being cold, and the next freezing cold, it's not too easy to know how to dress. But just the other day I found a kasha frock that solved the problem nicely, so nicely that I felt I must illustrate it for you today. It's a two piece affair, the jacket of chartreuse kasha with brown galalith buttons, and the skirt, with flaring godets, of dark brown kasha. This kasha, of a particularly close heavy weave, is heavy enough to wear right out doors when it's mild, accompanied by your favorite fur scarf, of course, and yet the frock fits snugly enough to be worn inconspicuously under your coat.

HEARD the reason, is there why you too shouldn't fool the weather man just as smartly and cleverly as this?

AND, of course, with such a suit of a change of blouse is highly desirable—especially if the blouse changed to is as jaunty as the skirt. I have sketched today one I have sketched today.

CHAPTER XX

The Highest Possible Compliment Jimmy's two hands inclosed her right hand. In a whisper, heard only by her, he added:

"Again."

"Trude Cotton, her waist not so aggressively large as it had been last night when Ralph danced off with her, and Tim Bond were already in the apartment. Trude, a huge napkin about her, waved a long-tined fork from the doorway to what Julie knew was the kitchenette.

"Tim Bond thought the party wouldn't be so well unless we had hot dogs," she explained.

"Cooking them," scoffed Dolly. "They're like eggs. All you have to do is put them in water and let them boil."

"Jealousy of my beauty I can understand," said Trude, "but envy of a skill acquired by long and arduous practice—"

"The water's boiling over," shrieked Bond.

Gaily it began, this supper party, and gaily it continued. Julie enjoyed herself thoroughly. Critics might carp at the quality of the wit, but none could deny the boisterous good humor of the affair. Julie began to understand why Dolly preferred Broadway to Park Avenue.

No one seemed to strive for effect here. The mere fact that Jimmy Farrell was of the theater seemed to "set" the party, to place it on the level of gaiety.

At 10:30 Jimmy looked at his watch.

"Have to be at the Treblond at 11:30," he announced, "and it takes me fifteen or twenty minutes after that to get dressed and made up. Folks, if you'll excuse me while I wash the dishes—"

"We'll wash them," said Trude. "You've cooked, you've earned your way," said Jimmy, "and so has Dolly. Julie—Julie haven't done a darned thing."

"What did Dolly do?" demanded Julie.

"I set the table and got up twice for more cream for the coffee," declared Dolly indignantly. "You did nothing but act like a lady, Julie."

"Yep, you help me wash the dishes," said Jimmy. He looked appealingly at her, and she rose gaily.

After all, she'd come here to study him. Why not grant him that slight privacy which his kitchenette afforded?

"We two can do it all," he said. "If you'll bring the dishes in here, Jimmy will be in one big chair at the apartment held, strumming on a broken-stringed banjo, and Dolly on the arm of the chair, was rallying him on his poor playing."

Julie's eyes were on Jimmy as he played. He was a good player, and she was a good listener. She was a good listener, and she was a good player.

Julie's eyes were on Jimmy as he played. He was a good player, and she was a good listener. She was a good listener, and she was a good player.

don't understand what it can mean to a guy like me, that has never had any. It—it's sort of like dope. I mean, it shoots you right up in the air, makes you dream things, and see things—here was I, a \$100-a-week hoover when I had a job. Overnight I'm a \$1000-a-weeker. That's just one job. Five yards for dancing at a party! Talkie coming along—well, it made me dizzy.

"You didn't seem so far away, Julie. I forgot that there was more than four between us—family, and position, and culture, and a lot of things I'd hardly realized existed. But when I got back here last night, I did plenty thinking."

"I try to agree that I oughtn't to keep apart. You weren't the kind of girl that would count a man's pennies before you took a fancy to him. But you would count 'you'd have to count' his real qualities. He'd have to have—well, class. That's the only way I can think of to cover it, Julie. And it's what I ain't got, and it's a dollar to a dime I can't ever get it."

"Not for kissing you, Julie—that don't hurt a girl, I mean, to be kissed when she didn't expect it, when she could hardly help it. What's that? Fresh, but that's all. But for telling you that I wanted you, that I was going to try to get you, that I had dough enough to give me a chance at you—I want to apologise for that, Julie."

He stood there, pathetic in his humility. He had a napkin like Trude's about his dinner jacket.

He was holding a plate in his hand, mechanically wiping it, although it was shiniest dry and had been for two minutes.

"Four blocks don't seem much distance, Julie," he went on, "but they're far apart as the Poles, really. We live four blocks apart—Broadway to Park I couldn't make that distance in a lifetime. It isn't in me, Julie, and I was crazy to think it was. And so I want you to forgive me for thinking I could."

"Forgive you?" Her eyes were shining. "Why, Jimmy, I don't think a girl needs to forgive a man for paying her the highest possible compliment."

As We See It

Uncle Sam Accepts Stolen Goods

Al Capone, if he behaves himself as a prisoner and does not receive a parole or pardon, will serve about seven and a half years in prison for the crime of having failed to divide his illegal and stolen goods with the United States government.

The standard press all over the United States is loud in its jubilation over this "great victory of law and justice."

It is probably the greatest defeat law and justice ever received in the history of the United States. American law was doubly defeated. It was defeated in not being able to convict the recognized king of gangsters and bootleggers of America under whose regime hundreds of murders, thousands of cases of extortion and intimidation, tens of thousands of cases of robbery, and millions of illegal sales of intoxicants were committed.

There is only one explanation possible for this terrible failure to fasten an essential crime on this recognized king of America's underworld. THE MACHINERY OF LAW AND "JUSTICE" WAS SO INVOLVED IN THE ILLICIT PROFITS AND ACTIVITIES OF GANGSTERDOM THAT IT WAS IMPOSSIBLE TO COLLECT AND PROPERLY PRESENT EVIDENCE. Surely with all our secret services, fully able to plant men in every group of gangsters in the United States, our armies of policemen and federal officers, our innumerable courts and keen-minded prosecuting attorneys, SUFFICIENT EVIDENCE COULD HAVE BEEN COLLECT-

ED TO CONVICT CAPONE OF THE CRIMES HE WAS ACTUALLY RESPONSIBLE FOR. This colossal failure is convincing evidence that the men who are entrusted with the administration of the law DID NOT WANT TO CONVICT CAPONE OF HIS ACTUAL CRIMES.

In other words, the whole effect of the failure to convict Capone of his actual crimes is to SHIELD AND PERPETUATE THESE CRIMES AND GIVE THEM A SORT OF LEGAL STATUS. Al Capone, the tax-dodger, is sentenced to prison, but ORGANIZED MURDER AND ASSASSINATION, EXTORTION, BLACKMAIL, GANG TERRORISM, WHOLESALE BANDITRY, AND PROTECTED BOOTLEGGING HAVE ENTIRELY ESCAPED EXPOSURE AND PUNISHMENT. It is probably the most colossal deflection of essential justice in American history.

The second phase of this double defeat of America is that in this case THE UNITED STATES GOVERNMENT RECOGNIZES THE LOOT OF MURDERERS, BANDITS, TERRORISTS AND BOOTLEGGERS AS BEING FIT AND PROPER INCOME FOR TAXATION PURPOSES. Heretofore, stolen goods have been recognized by the law as only proper material for RESTITUTION TO THE REAL OWNERS WHO HAVE BEEN ROBBED. In recognizing Capone's plunder as subject to income tax laws THE UNITED STATES GOVERNMENT MAKES ITSELF A PARTNER AND FELLOW CONSPIRATOR IN STEALING THIS LOOT FROM THE LEGITIMATE OWNERS AND DIVIDING IT WITH THIEVES, THUS MAKING GOVERNMENT A PARTNER IN CRIME AND GIVING BANDITRY A LEGAL STATUS.

If a bandit's income is subject to TAXATION instead of RESTITUTION, it is thereby MADE LEGITIMATE AND LEGAL. The bandit by virtue of this process BECOMES A TAXPAYER AND CITIZEN SUBJECT TO THE PROTEC-

TION OF THE LAW. The United States cannot consistently refuse legal standing and protection to ANY PERSON FROM WHOM IT ACCEPTS TAXES. That is why taxes are paid. TAX-PAYING IS PAYMENT OF MONEY TO ORGANIZED GOVERNMENT FOR LEGAL STANDING IN THE COMMUNITY AND PROTECTION UNDER THE LAW.

In view of this situation, what will the government do in the future? WILL IT COMPOUND THIS FELONY BY ATTEMPTING TO DECEIVE THE GANGSTERS AND TRICK THEM OUT OF THE VERY THING THEY HAVE BOUGHT AND PAID FOR? OR WILL IT MERELY DECEIVE LAW-ABIDING CITIZENS BY MAKING THEM BELIEVE IT IS DOING THIS, WHEN IT REALLY IS NOT? Of course, the latter is exactly what it will have to do. In accepting the "principle" that stolen goods and illegal profits are subject to the income tax law, the government has established the greatest COLLUSION WITH CRIME AND CRIMINALS in the history of America.

CITIZENS, WAKE UP, AMERICA FACES ITS GREATEST DANGER!

The American Federation of Labor believes in drowning our troubles instead of settling them. It indorsed 2.75 per cent beer. If it will take a lot of that kind of beer to drown the present troubles of the nation. The A. F. of L. boys, however, are right; if you can't settle the hunger problem, at least try to settle the thirst problem.

Donald Hart of New London, Iowa, in the heart of the T. B. war zone, was locked up because he couldn't restrain his sense of humor, and laughed at the state militiamen. This is a new kind of crime and ought to be given an appropriate name. We suggest that it be called disloyal smiling or sedi-

tious laughter, according to the degree of guilt. But if citizens and school children are to be punished for this new kind of crime, there ought to be some legal way to keep a lot of armed militiamen engaged in raising cows' tails from looking so darned funny.

Those Russians must be cold, cruel persons. Bernard Shaw quotes them as saying that the prosecution of Al Capone for tax-dodging is just a case of a government punishing a bandit for not splitting with it on the loot. Why don't somebody show those birds where they are wrong?

Note to the unemployed: Perfectly good governorship open in Louisiana at good salary for any jobless person who has the courage to face the present disputed claimant — Huey Long.

Japan and China have solved one great problem — they have conclusively proved that two nations can put up a pretty good scrap without a declaration of war.

What we need most right now is relief from so many different kinds of relief.

It is still a question which did the most to cause the depression—over-production or over-prediction.

Our Platform for the People Is:

1. Less taxation.
2. Fewer State Commissioners.
3. Universal school books.
4. Lower freight rates.
5. Return of river transportation.
6. A cleanup of some state institutions.
7. More efficiency in public offices.

The Evening Story

SO TERRIBLY ATTRACTIVE

By Lillian Mac Donald

I saw him at the talkies. He sat across the aisle from my sister and myself. I just never saw such a profile! He was marvelous. He didn't look around or smile or get fresh. Might have been on the screen, only he was better looking than any screen idol. My sister said: "Stop staring at him. You never acted that way before." It's a fact, I never did.

I simply had to find out who he was and if he had come to live here or was just a traveling man or something. Myra (my sister) promised if I'd watch the picture and not stare any more she'd find out. And Myra is just such a bad scout when she says she'll do something. Only you have to play fair with her. I promised, but I nearly squinted for life, because as we came out I just had to get one tiny glimpse. But I never saw such a stolid person. He never saw me at all.

Myra's husband is the owner of the drug store. When they were married first, both I and Ferdie (that's my kid brother) could have sundries whenever we wanted them. We can't now. But still, of course, everything comes to the drug store because everybody buys soap or aspirin or a compact. Anyway, I knew if Myra set about it the right way, Kenneth (that's her husband) could find the terribly attractive man.

I phoned Myra first thing Monday morning to ask her the baby's cold better. It was but Myra said: "You don't care about the baby. It's that collar ad man who want for a boy friend." "Who is he, anyway?" I said, "and I don't see why you'd act so snooty when you know how you tried to get introduced to Ken."

"He's likely to stay in town," said Myra. "He's the new manager of the plumbing shop on Maple Street."

Gosh! Did I wish it was winter and we had a hard freeze? Mom often forgets to leave our faucets dripping cold nights, and Pop is more than likely to neglect the furnace when it's cold. Plumbers in winter—unless something happens—

Myra brought baby over in the afternoon. Our porch is larger than hers, and Myra thinks she can smell soap on something from the drug store across the road in hot weather and it might be bad for the baby. So I offered to give baby a cool bath. We still have Ferdie's old tub toys and duck's bill is loose. What a dreadful thing if it went down the drain and stopped it up! Myra knows I'm safe with baby—I mean, baby is safe with me—so I gave him a bath and before either of us knew anything about it, that old duck's bill was stopping up the little hole where the water runs out. I tried to pry it out, but I'm not so mechanical as some. Pop says the runs in a garage, and, well, Mom had to send for a plumber. Myra didn't say anything because she knew if she did I'd tell Ken she juggled the household accounts to buy him. "I hope that old fossil Johnson doesn't come," said Mom. "He takes all day. Oh dear! My rug will be ruined! It's coming through the ceiling now."

A smart little roadster drove up. It wasn't old Johnson, but—well, if a man looks nice when he's dirty and kind of mixed up with pipes and things, then he's some looker, that's all. He smiled and his teeth were just like a toothpaste ad. I said I'd take him upstairs, as Mom

was getting the dinner ready, and Myra took the baby home.

"Like kids, do you?" said the new plumber (his name was Charlie May).

"I like my nephew," I said. Did I want to make a good impression? And I kind of thought his line was a quiet one. He was right.

He said he had a flock of little brothers and sisters himself and for a moment I was afraid he was just going to say he was planning to send 'em all to the university. But he didn't. He said his dad had a machine shop, and spoke as if they'd all like it.

Then he asked me if I liked riding. That was all, for Mom came in and asked when the job would be finished.

Of course he said he had to go back for something, and kind of smiled and added that plumbers have about a million different tools, and that's why they can't bring 'em all at once. I said, "Then you ought to tell a plumber what's the matter, like you do a doctor, when you phone him first."

Ma said quite sharply, "Now don't be fresh!" so I thought I'd go find Ferdie and see his ears were washed in time for dinner.

"Mr. May was good to come himself," said Mom at dinner. "It seems he's new manager and poor old Johnson has gone to live with his son."

"All the girls'll be chasing him up," said Pop. "He's a good looking youngster. I suppose Isabel, (that's me) was making eyes at him."

"I don't think he noticed him. Though, when I come to think of it, she was talking to him an awful long time before I went up and he had to go to the shop for some tool or other."

"Um!" said Pop, and Ferdie and he exchanged one of those maddening winks.

Mom rather liked Charlie. She asked him to stay to dinner Sunday, when she saw him in church and that he hadn't any place to go excepting the hotel. He said might he take Mom for a ride. We went and he was just marvelous. Kind of bashful and treated me as if I broke. You know that gets you. Of course I've been riding with loads of boys since I was in high, but not like him. He was—well he was just marvelous. And was in love!

After that he kept coming. And Mom and Pop didn't seem to mind. He'd always have something for Ferdie, either a ticket for a talkie or candy, so the little pig kept away. Ferdie is awful and just has to be bribed to be human.

In midwinter (just pipe freezing time) he asked me to be his wife. Mom said, "She's awful young!" Pop said, "Better get it over and done with."

All my girl friends were jealous at first but he was so terribly attractive. He is.

We've been married a year now and there's a small Charlie upstairs, exactly like his pop excepting he has gray eyes, like mine.

Charlie keeps asking what Myra means by saying she gave young Charlie a duck to play with in the bathtub.

"She's dumb, that's all," I say. (Copyright 1931, by D. J. Walsh)

PETER DISCOVERS SOME HOLES

There was something so very strange and mysterious about the appearance of Old Mr. Toad that Peter Rabbit could not help having a queer feeling about that pit in the corner of Farmer Brown's garden.

He almost had the feeling that he must have dreamed that old Mr. Toad had fallen into that pit. But he knew he hadn't dreamed it. With his own eyes he had seen Old Mr. Toad down there, and he had talked to Old Mr. Toad. There was no dream about it; it was true. More than this, he had spent a whole day trying to get help for Old Mr. Toad. And now Old Mr. Toad wasn't there, although he couldn't possibly have climbed those walls. Back to the Old Briar Patch went Peter to rest and try to think what could have become of his homely old friend. The more he thought the more puzzled he grew. He tried to put the matter out of his head, but he couldn't eat. Such a thing was almost unheard of.

By the middle of the next afternoon Peter could stand it no longer. He just had to have another look at that pit in Farmer Brown's garden. So, making sure Reddy and Granny Fox were nowhere about and that Redtail the Hawk was not in sight, he started for Farmer Brown's garden, lippety-lippety-lip, as fast as he could go. He knew he had no business there and that he was running great risk of being discovered, a great deal more risk than if he went at night, but he just HAD to have another look in that pit. He had given up all thought of getting some one to help Old Mr. Toad. What was the use if Mr. Toad wasn't there? And he didn't dare tell anyone. Toad how Mr. Toad had fallen into that pit, because if Mr. Toad wasn't there everybody who heard his story would laugh at him and say that he had been dreaming.

He reached the garden safely and at once hurried over to the pit which Farmer Brown's boy had dug and into which Old Mr. Toad had fallen. Taking great care not to get so near that he would be likely to tumble in himself, he peeped over the edge. Jolly, round, bright Mr. Sun was looking down and smiling with all his might, and on the bottom of the pit there wasn't a thing that even a fly could hide under. Old Mr. Toad wasn't there. So far as Peter could see there of Old Mr. Toad out of his head.

People's Pulpit

The People's Pulpit:—

The following is from our county paper, the Mt. Pleasant News:

"There were no cheers or greetings for the soldier boys and no remonstrance no indications of antagonism, merely dumb humiliation that such a thing could happen in Henry county. About the square there was no sign of evidences of excitement or much interest. People seemed to be ashamed of the developments that they did not even want to talk about it. The usual knots of men on street corners were gone and the smallest afternoon crowd in a long time was seen on the streets. Even the officers of the militia sensing the feelings of the people moved the troops by the most obscure route to the fair grounds and with as little display of authority as possible The cheerful side of the picture is that probably ninety-five per cent of the county are for law enforcement. There may be a wide difference of opinion as to the merits and demerits of the testing law but it is the Iowa law and like all laws must be enforced until strict-en from the statute books by the legislature, and which will be done as public sentiment changes suggestively."

It states that 95 per cent of the people here are for law-enforcement, with which we all agree, providing the law is a just law and for all the people and not just part of them.

We take it for granted that he meant the T. B. law. I don't think half the people in this county are for it now. If half the farmers here believe in the T. B. test, why haven't they asked the state men to come and test their herds in-

stead of waiting until it is shoved on them, as it is now? If they believed in the T. B. test law they would have had their cows tested every year instead of taking chances on drinking filthy milk from tuberculous cows. There are young cows coming on all the time and we use their milk. Does this keep the people free from tuberculosis? It can't be possible I don't think we get T. B. from drinking milk, as I have drank milk all my life.

My mother died with T. B. and I was raised on the breast and I don't have T. B. as far as I know, and I am 60 years old. I am certainly bitter against the T. B. test. Let's be careful next election. Let's pick men who will work for the farmers, as the city folks don't understand the farmers' situation. But the farmers help pay the taxes and support the county agents, just the same. Of what benefit are the county agents to the city folks or the farmers either? I was born and raised on a farm and I don't have to go to a county agent for advice. I don't know a neighbor in our community who needs the advice of our county agent. We farmers here farm according to the weather conditions. We are not furnished capital by the state to run our business, but have to furnish the capital and brains to run our own farms. But I am afraid many of us will go broke if the state continues to enforce against us laws that are not just or right. I am for the Midwest Free Press and also for Baker for governor of Iowa.

Right under it was the tiny pile of sand, and Peter knew that this sand had come from that little hole. A little above the hole and at one side was another little hole and right below it was the second pile of sand. Some one had made them. Peter knew that. Holes do not make themselves. But who under the sun could have made these? Had some

Peter began to feel that there was something very queer about that pit. He began to be afraid of it. Certainly a place where such strange things happened was no place for him to be. Something might happen to him. So with a last look at the two holes Peter scurried away.

THE ONCE OVER

By H. I. PHILLIPS

Elmer Twitchell on the Luxury Tax

Elmer Twitchell announces that he supports the administration idea of a sales tax on luxuries as a measure that ought to erase the national debt. "If you know anything that ain't a luxury just now, name it," challenges Elmer.

—OO—

"It ought to bring in billions to Uncle Sam," continued Mr. Twitchell, even if they only tax haircuts and shaves, which are outstanding luxuries in many quarters at the present time. The luxury list in this country today is so long that if placed horizontally it would reach from Chillicothe, Ohio, to the Singapore Straits. I am dropping a line to Andy Mellon and suggesting that the following luxuries be put on the list:

1—Shoe Shines. (A shoe shine is still a luxury, although some of the boys are getting back to the five-cent polish rather reluctantly. I personally haven't been able to afford a shine for six months.)

2—Drug Store Ice Cream Sodas. (As the price which the drug stores have commanded for ice cream sodas for the past few years, they should head any list of luxuries. And what they charge for fresh orangeade is plain murder.)

3—Chicken Salad. (I have never been able to figure out why restaurants should make a chicken salad almost prohibitive to anybody except millionaires, but they do. Is there a lettuce shortage or something?)

4—Automobile washing. (If you want to get a new turned on your car it costs \$2, regardless of whether it's a sedan or a cheap roadster. The garages give fifty per cent of it to the government.)

5—Prescriptions. (Have you noticed the prices you're getting for filling those Latin prescriptions these days. Luxuries! I'll tell the world!)

6—Doctors Services. (If going to a doctor isn't a luxury in the United States, you tell me. What a doctor does is to sell his services and I certainly favor him being hooked in the sales tax, especially those big city specialists.)

7—Lawyers. (I hope you get these babies. I went to one last week for a little advice about paying my wife a little alimony and it would have been cheaper for me to leave my entire estate right now. There is no luxury like a fifteen-minute chat with a lawyer, however bad.)

8—Oysters. (I don't know any-

thing about what an oyster costs the retailer but I think the ultimate consumer is soaked plenty when he buys a half dozen on the half shell and that any oyster is a major luxury.)

9—Melons. (Anybody who has ordered a slice of melon in an American hotel for breakfast knows what luxury is, and I need say no more.)

10—Coffee. (There are luxuries and luxuries in this country, but you don't know the half of it until you order a pot of coffee in one of those big metropolitan hotels and get the check. A sales tax on the receipts from the coffee charges at six big hotels in New York alone would pay the national debt and leave enough over to cancel the war obligations and buy Mexico.)

"Yes sir," concluded Elmer, "this idea of a tax on luxuries opens a wide field. I know none wider."

CHICAGO—(INS)—Followers of Big Ten football looked ahead today to Saturday's game between Wisconsin and Minnesota to determine whether the Badgers can "stand the gaff" or merely be possessed with some divine inspiration when they upset Purdue.

Events of the weekend just closed cause the conflict as Minneapolis to be the most significant in the near future.

The Cardinals voyaged out to Philadelphia, only to be badly outclassed by Pennsylvania. Taking sweet revenge for the defeat they suffered last year, the Tartans rolled up a score of 27 to 13. At the same time, Minnesota opened its conference program by toppling Iowa, 34 to 0.

Wildcats Title Favorites
Meanwhile those snarling, wild-eyed Wildcats from Northwestern claimed a 10 to 0 victory out of the vitals of Ohio State at Columbus.

By this feat, the Northwestern team put its feet firmly on the road to the championship and buried the Badgers' hopes deeper than yesterday's Ohio State game.

Pug's Rentner's 50-yard joyride through a broken field, played Olin's dropkick from the 33-yard mark, accounted for the victory. The Purple eleventh will meet Illinois, a weak team, next Saturday, while Ohio plays Indiana.

Purdue, boasting last Saturday's 13 to 6 win over Carnegie Tech, is scheduled to clash with Chicago on the midway this weekend. A powerful running attack, with Hecker and Pardoner doing much of their work, gave the Boilers victory in their satisfying victory at Pittsburgh.

Irish Tame Panthers
In another interesting intercollegiate combat last Saturday, Notre Dame subdued the Pitt Panthers at South Bend. The Irish were slow in getting started against their powerful opponents, but once underway they got three touchdowns by the overhead route and one after some old-fashioned marching down the field.

Notre Dame goes to Pittsburgh to play Carnegie this weekend.

Indiana, for the first time in 21 years, triumphed over Chicago. At the end of the third period, the score stood 13 to 6, but the Hoosiers then proceeded to run wild and the final count was 32 to 6.

Wolverines Swamp Illini
A big fullback named Bill Ewert struck his stride against the Illini at Champaign, with the result that the Michigan grid machine ground Coach Bob Zuppke's men into pulp.

The final score was 35 to 0. Other unpleasant statistics to a big homecoming crowd were Michigan's 14 first downs to Illinois' two, and the Wolverines' 228 yards from line of scrimmage compared with the Illini's 23.

While the Illinois team is playing Northwestern next Saturday, Michigan will be in the east, trying to get Princeton's coat. Iowa is the only other Big Ten outfit taking a rest from conference competition this week, having booked George Washington.

Morton Baer Leads Yellow Jackets to Victory Over Bears

CHICAGO—(INS)—The Philadelphia Yellow Jackets, National League professional football team, today boasted a 13 to 12 victory over Red Grange's Chicago Bears.

Morton Baer, Southern California's former All-American, took the glory by scoring the winning touchdown with an 84-yard dash. The game yesterday was witnessed by 28,000 spectators in what was said to be the first "Ladies Day" of professional football.

Davis and Elkins Team Still Leads Nation in Scoring

NEW YORK—(INS)—Davis and Elkins again today led the nation's football eleven in scoring with a seasonal total of 253 points. No opponent has scored on the leaders.

RESPIRATOR USED TO SUSTAIN LIFE OF ARMY GRIDMAN

Cadet Sheridan Near Death in Hospital From Broken Neck

NEW HAVEN, Conn.—(INS)—Only an artificial respirator today kept alive Cadet Richard B. Sheridan in New Haven General hospital.

Sheridan suffered a broken neck while playing football on the Army football team in the game Saturday with Yale.

So far he had not regained consciousness since the accident. The last rites of the Roman Catholic church were administered to him.

Efforts were being made to sustain life until his parents reach his bedside today from Augusta, Ga., but physicians said there was only a "sporting chance" that he would live that long.

Sheridan had a second sinking spell last night, the first having occurred earlier in the day.

One of his vertebrae was fractured and two others dislocated in a fall while tackling a Yale halfback.

So many telephone calls inquiring about the condition of Sheridan were received, special operators were obtained to handle them.

ATHLETIC CLUB BEATS MUSKIES

Valley Junction Team Wallops Locals in Sunday Contest

VALLEY JUNCTION, Ia.—(Special)—Presenting a classy and powerful backfield behind a heavy and smooth working forward wall, the Valley Junction A. C. football team kept its record clean for the season when it swept over the highly touted Big Muskies here Sunday afternoon, 34 to 0.

The locals had complete control of the outcome of the game with the Big Muskies failing to even make a serious threat for a touchdown. The locals scored a touchdown in each of the first two quarters to lead at halftime by 13 to 0.

In the third quarter the Athletic Club stars pushed across two more touchdowns and scored each of the extra points to lead by 27 to 0 at the end of the third period.

In the last quarter the locals scored their final six points and kicked the extra point to leave the field once more this season without their goal line being crossed.

There was no individual star for the locals. All of the players that seen service performed in fine fashion. They limited the Muskies to but three first downs while they marked up a total of 18. Bud Flake of the visitors, who was inserted into the fray late in the fourth quarter, was the star of the game with his brilliant long punts.

In four tries he had an average of 55 yards.

Ray at end and B. Coffin in the backfield were other stars for the Muskies. Muscatine's only chances of a score came in the fourth quarter when they tried to field a touchdown. However, he stumbled and let the ball fly from his hands and a Junction player fell on it.

Only Few Penalties
Valley Junction was penalized twice for a total of 30 yards while the Big Muskies received no penalties during the entire engagement.

Both teams tried five forward passes and each team completed two. Muscatine recovered three of Valley Junction's fumbles.

Five of the Big Musky regulars did not make the trip here to play and it weakened the visitors somewhat. The starting lineup for the Muskies was as follows: Jarrard and Ray, ends; Gabriel and Sharp, tackles; C. Manley and Ellington, guards; Bogard, center; R. Manley, quarterback; B. and C. Coffin at the halves and Snider Flake, fullback.

Green Bay Packers Wallop Providence Eleven in Pro Game

GREEN BAY, Wis.—(INS)—The Green Bay Packers were further fortified today in their position as champions of the National Professional Football league as a consequence of their 48 to 20 victory yesterday over the Providence Steam Roller. Engelmann starred for the Packers with three touchdowns.

SPORT SHORTS

Connie Mack will be 60 years old on December 23.

Brooklyn likely will dispose of Pitcher Dazzy Vance and Shortstop Glenn Wright during the off season.

Babe Ruth has hit forty or more home runs ten years.

The Baltimore Orioles have signed to return to Guilford, Miss., for their 1932 spring training.

Hogging The Picture Again

GREEN BUSH IS BEATEN, 45-13

Ernie Nevers Leads Chicago Cardinals To Easy Win

ROCK ISLAND, Ill.—(Special)—With Capt. Ernie Nevers leading the parade with three touchdowns, the Chicago Cardinals defeated the Green Bush club of Rock Island here Sunday, 45 to 13.

Holmer, Belden, Glasgow, and Hill broke loose for 30 and 40 yard runs.

Rock Island scored in the opening minutes when Walt Holmer's punt was blocked. Schroeder took the ball in the air and slipped over the goal line. The other Green Bush score came in the second quarter on a long pass, Schroeder to Mosier.

The Cards counted three times in the first quarter, once in the second and third periods, and twice in the final session. Lineup:

Eddie Casey Says East Has Monopoly on Unbeaten Teams

Harvard Coach Admits, However, Irish Team Exceptional

By EDDIE CASEY
(Former All-American Halfback and Head Football Coach at Harvard)

(Written for and Copyrighted, 1931, by INS.)

BOSTON—(INS)—With the season half over, football followers are more mixed-minded than they have been in years. At this same time, as to their relative strength of football in the various sections.

The east certainly has a monopoly on undefeated teams, and except in the case of the Notre Dame-Pittsburgh game and the Yale-Georgia games, eastern teams have had excellent success in tests against teams of their sections.

Victories of Harvard over Texas, Pennsylvania over Wisconsin, Fordham over Drake and Army over Michigan State are just a few of the major eastern triumphs.

For lack of any early season tests no general comparison may be made as to the power generated in the squads of the Pacific coast, in which section St. Mary's is the most conspicuous possessor of all Notre Dame teams of rising to supreme heights when the going is hardest.

Georgia, Tulane and Tennessee are the southern leaders. None of the trio has been defeated. Tulane defeated Vanderbilt, 19-0; Georgia beat the same team, 9-0, and Vanderbilt previously had beaten Ohio State. Tennessee's stock loomed high when it defeated Alabama, but it eked out only a 7 to 6 win over North Carolina which the previous week had been defeated by Georgia, 32-7.

The southwest, which has produced some great teams in the past, suffered an intercollegiate conference title a year ago and has been rated as strong this year. It was a team which had an offense, almost completely built on a forward pass attack, and it long ago was proved that a forward pass attack by itself will not stand up to a team to watch.

Badger Upset Astonishing
Another intercollegiate game of note was the Penn-Wisconsin meeting. That to my mind furnished the most astonishing outcome of the day.

Penn. though undefeated, had not been considered a strong team. Yet a smashing victory of the sort scored over the conference team indicates that Penn is a team to watch.

In the conference Northwestern is undefeated, and Minnesota is a team to watch also. Aside from a scoreless tie with Notre Dame, Dick Hanley's Northwestern team has had clear sailing, while Minnesota's

BOXING WORLD GETS A LAUGH

Muldoon Creates New Division to Furnish More Laughter

NEW YORK—(INS)—William Muldoon, chairman of the New York Boxing commission, again twanged the funny bones of the boxing world. The iron-fisted ruler practically creates a new division in a dictum that directs Primo Carnera, Vittorio Campolo, Arthur Dekuh, Ray Impel, Walter Cobb, Jose Santa and, of all things, George Godfrey, to fight it out among themselves. What the huge hulks are to fight for, nobody knows.

The biggest laugh of all came with the mention of Godfrey's name.

As the fight fans will recall, Godfrey, for quite a spell, has been persona non grata with the Queensberry czar.

Muldoon again proves "a king can do no wrong." Great men are privileged to change their minds.

Thirty five or forty years ago, when Muldoon was a truly great wrestler, he toppled many an opponent twice as big as himself. His slogan of those days was: "None can measure a man by inches. One doesn't have to be huge to be good and great in the ring or out of it."

If Muldoon has his way—gone are the days of such thrilling ring spectacles as Jack Dempsey provided when he cut the Giant Jess Willard down to his own size and stored him away on the drying rack. And there will be no thrillers such as the same Dempsey encountered in the New York ball park when he deformed the Mastodon Angel Firpo.

But then—fight fans no longer expect to see great fights. Laughs, and lots of them, likely will be their lot.

COMISKEY WROTE RECENT ARTICLES FOR FREE PRESS

Last Criticisms of Baseball Given by The I. N. S.

CHICAGO—(INS)—Some of Charles A. Comiskey's last criticisms of modern baseball, as well as after his death today, were contained in a copyright article he wrote for the Milwaukee Free Press on the eve of the 1931 world series.

"I don't like the modern game as well as the game of two or three decades ago," he wrote. "The science has been taken out of it. Baseball today is more or less a slam-bang affair. Now-days the quick-thinking, brainy player is eclipsed by the fellow who can lambast one over the fence."

"Too many home runs—That's the trouble. They are cheap home runs. Everybody hits them. The 'muscle man' is king. One run doesn't mean anything any more—the scores must be collected in bunches."

Comiskey added that what he would like to see is an old-time pitching duel of the Walsh-Joss or Brown-Mathewson variety.

BIG SIX RACE IN 3-WAY TIE

Iowa State Cyclones Win First Contest Since 1928

KANSAS CITY—(INS)—First place in the Big Six conference standings, heretofore enjoyed jointly by the Kansas Aggies and Nebraska Cornhuskers, was in its midst—the Iowa State Cyclones.

Not since 1928 has Iowa State experienced the thrill of a marker in a dictum that directs Primo Carnera, Vittorio Campolo, Arthur Dekuh, Ray Impel, Walter Cobb, Jose Santa and, of all things, George Godfrey, to fight it out among themselves. What the huge hulks are to fight for, nobody knows.

The biggest laugh of all came with the mention of Godfrey's name.

ROWLAND TAKES ON MANY JOBS

Now Seeks Presidency Of International Loop in 1932

Clarence Rowland has just finished a baseball season in which he served as a club president, club manager and club secretary at Reading in the International league. In addition he was the owner.

And with the record of versatility behind him, he has let it be known that he is a candidate for the presidency of the league in 1932.

Charles H. Knapp, of Baltimore has served as the head of the International league since the death of John Conway Toole early in 1929. At first Knapp was the head of a board of managers who took over the executive duties. Then he was elected president for 1930 and again in 1931.

Knapp is president of the Baltimore Orioles, assuming that post upon the death of his friend, Jack Dunn.

The Baltimore men, being rather wealthy and not exactly needing the salary that goes with the league presidency, is not desirous of continuing in office. In fact, he was very reluctant to accept the assignment in the first place. But the league at the time could not agree on any other man and the job was just wished off on Knapp, the same procedure following at the end of each season when the question came up.

Now it is believed that Rowland has enough support to land the presidency and his friends say he is in a receptive mood. The league will meet early in December, just before the minor league meeting in French Lick.

Rowland first claimed fame when he piloted the White Sox to the baseball heights, after having been a manager at Peoria. After the White Sox engagement he umpired in the American league, did some scouting and headed the Nashville club. Early in 1931 he took over the Reading franchise.

Body to Be Returned to Chicago Tonight For Funeral

EAGLE RIVER, Wis.—(INS)—The body of the "Old Roman" will be returned tonight to the scene of his baseball triumphs.

The remains of Charles A. Comiskey, 72, are to be sent to Chicago, where they will repose in the family residence pending funeral arrangements.

Comiskey, the last of the "Big Three" of baseball, all of whom died recently, succumbed here shortly after midnight.

J. Louis Comiskey will accompany the body of his father to the city which loved the "Old Roman" as owner of the White Sox of the American league.

Dies in Sleep
The elder Comiskey suffered a relapse last week that indicated the end was near. Death was due to a complication of kidney trouble and heart disease. He died in his sleep.

Louis was at the bedside when his father died in the Comiskey summer home at Eagle River, Wis., a close relative. The White Sox owner had suffered a long illness at his sylvan retreat near here.

Comiskey was the last of a trio that dominated major league baseball before the advent of Commissioner Kennesaw Mountain Landis. Ban Johnson and Garry Herrmann were those associated with Comiskey in ruling the national pastime.

Comiskey's death terminated one of the longest and most picturesque careers in the history of baseball. He was the only player ever to rise to a position of sole ownership of a major league baseball club. Throughout the baseball world and to his numerous friends from that point on he was known as the "Old Roman."

Starts in Young
His interest in the national pastime stretches back to the days when he was a member of a brick wagon as a boy of 12. Even against the admonition of his parents, he pursued his beloved sport.

He was born in Chicago on August 15, 1858. As a lad he spent much of his leisure time in playing baseball with his main school playmates. Once he deserted his brick wagon to pitch in a sandlot contest. His father discovered him neglecting his school and gave him a severe reprimand from that point on, he was definitely converted to a baseball career.

His first baseball job was with the Milwaukee Alerts as third baseman as a salary of \$25 a week. He played successfully with teams representing Elgin, Ill., and Dubuque, Ia., and in 1883 he made his debut with the St. Louis Browns. Shortly thereafter his success won for him the management of the St. Louis team and, under his guidance to club won the American association pennant for four consecutive years.

Started American League
In 1890 Comiskey assumed management of the Chicago club in the new player's league. A year later he came back with the St. Louis Browns and from there he went to the Cincinnati Reds as manager. In Cincinnati he met Byron Bancroft Johnson, then a newspaperman, and the two men launched the movement which resulted in the birth of the American League.

Comiskey and Johnson first ventured in the Western League. Comiskey organized the St. Paul club of that circuit in 1894 and took over the team's management. The club was moved to Chicago two years later and became the Chicago White Sox with Comiskey as president and owner, when the American League was organized in 1900. In the early years of the American League Comiskey and Johnson tolled together to shape the circuit into the organization it is today. Later, however, their friendship turned into bitter enmity.

"Black Sox" Blamed
The heaviest blow ever sustained by Comiskey as a baseball man was the incident of 1919 when players of the strongest team he ever assembled threw the world series to Cincinnati. He banished seven of his stars and began rebuilding his club, but the "Old Roman" never fully recovered from the shock and his health began to fail.

Comiskey was married to Nan Kelly of Dubuque, Ia., in 1882. There were two children, but one died. The older, J. Louis Comiskey, is now treasurer of the White Sox.

Ohio Spartans Win Again; Cagle Leads Giants to Victory

NEW YORK—(INS)—The Portsmouth, Ohio Spartans, current sensation of the National Football League, had scored their seventh consecutive victory today by vanquishing the Staten Island Stapletons, 20 to 7.

Chris Cagle, former Army football star, was the hero as the New York Giants defeated the Brooklyn Dodgers Sunday, 27 to 0. His long runs thrilled a crowd of 22,000 fans.

DURANT

DURANT, Ia.—(Special)—William H. Bierkamp, the oldest son of Mr. and Mrs. William Bierkamp of Durant, died at the Durant hospital Sunday afternoon October 18, 1931, following an illness which had lasted over a period of about two years. Death was caused by a stroke at about 2:30 o'clock. He was 56 years, five months and six days old.

William Bierkamp was born in Durant, May 12, 1875. His early life was spent here where he attended school. Following that he attended the Davenport Business college. At an early age he was employed in the Durant Savings bank and a few years later at the age of 23 years, he became cashier of the newly organized bank at Bennett. He occupied this position for some years and then moved to Fort Worth, Texas, where he was employed in banks in that city but the last few years he was employed in the real estate and oil business.

He is survived by his widow, two daughters, Mrs. Ella Barham and Mrs. Francis Brown all of Fort Worth, Texas, his parents Mr. and Mrs. Wm. Bierkamp of Durant; a sister, Mrs. Rose Huchendorf of Durant; and 5 brothers, Gus of Omaha; Frank of Swift Current, Saskatchewan, Canada; Albert of Davenport, Otto of Durant and Walter of Los Angeles, California.

He has been in ill health for the past two or more years, about two months ago he came north to the home of his parents and for a time he was a patient in the Durant hospital. 112,000 GERMAN BAILIFFS

BERLIN—(INS)—Germany has more bailiffs than soldiers. While Germany, under the treaty of Versailles, is not allowed to have an army of more than 100,000 soldiers, there are no restrictions as to the number of bailiffs. They now number 112,000 and they are the only people whose business is still going strong.

KEOTA

KEOTA, Ia.—(Special)—Burglars entered two private garages here one night this week. One at the Walter Stouther home where they stole his Chevrolet battery. And at the J. B. Ochs home they took several articles of value and siphoned the gasoline from the tank of his Pontiac.

Superintendent Church and Victor Hess took in the Iowa-Indiana football game Saturday.

Football boys had a big pep meeting Thursday evening. They built a large fire and had a high time. It seems they thought they needed a little peping up for their game with Sigourney.

The community sale held by the Trier Brothers drew an enormous patronage of saleable articles and materials as well as buyers from a wide radius around Keota. The sale was held Wednesday on East Broadway, near Singmaster's barn.

The fire company held their regular monthly meeting at the town hall Tuesday evening. Their business consisted mostly in settling up bills, including a bill for masks that had been purchased for fighting fires inside of buildings, and some equipment for their engine room.

Muscatine Loyalty League

The True Spirit Of Progress

A Test of Circumstances

The financial test of a bank or a corporation usually comes during a nation-wide crisis when business conditions shriek with the pain of depression. Much of the ability as to whether these institutions can carry on depends on the psychological effect that such a crisis has on the people of the community. If they are to adopt a pessimistic attitude toward all business activities in general, the depression is made just that much worse, the time that it will take to get back to normalcy will be just that much longer.

Right now we are passing through one of these periods of business depressions; it is one of these times that no power can control, the result of a business cycle that is characteristic of our economic structure. Like the human body this structure is subject to its ills and reacts similarly to treatment. Faith in our institutions and our government and in ourselves is the remedy that is prescribed by those who are capable of diagnosing the cause. Half the cure depends on the citizens' mental state of being; patience and perseverance must be paramount for the best results in any dilemma, whether it be physical or otherwise. It is our duty to stand up and aid in the cure.

As citizens of the United States and the city of Muscatine we have a double duty. We must show our loyalty to our community as well as our country, for upon the success of our country's communities depends the success of our country, since our country is made up of communities. One of the best proofs of our loyalty is the interest we take in our community institutions, whether they be business or otherwise. Are we supporting them? Does our interest in them divulge a real community spirit? A spirit that will stand the test of time and circumstances.
